OUTBREAKS TODAY IN 2 STEEL TOWNS

One Striker Killed and One Badly Beaten in Gun Fight With State Police at Farrell, Pa.

WERE SHOOTING STEEL PLANT

Shots Fired at Employees of Clairton Mill Carrying Wages—Picket Lines Are Appearing

(By United Press.)

Farrell, Pa., Sept. 25.—One striker was killed and one badly beaten in a gun fight with state police here today. The police raided a house from which it was declared they were sniping the steel plant.

Pittsburg, Pa., Sept. 25.—A score of shots were fired today at three employees of the Clairton Steel plant and a policeman enroute to the mill. The men were carrying \$200,000 in wages to be paid the workers. No one was injured.

Begin Limited Operations

Chicago, Ill., Sept. 25.—Steel mills began to combat the strike in the Chicago districts today. The Gary plant at Gary, Ind., began limited operations, using workers who have been stringing back in the last few days. Steel company officials at Indiana Harbor and East Chicago said men were appealing for more police protection so that they might return to their jobs.

Transportation promised to bring problem today with trainmen reported resting at handling supplies for steel men remaining at work and the seamen grumbling over handling ore for the companies.

Somber Marks of Struggle

Pittsburg, Pa., Sept. 25.—The somber marks of a protracted industrial struggle were settling upon the Monongahela valley today.

As far as permitted by rigid police regulations, picket lines are beginning to appear about the big steel mills.

From inside of the plants come heavy pounding, rattling and the noise of workers, while outside great numbers of men move through the streets obviously idle.

Mounted state police in their gray uniforms rode through the streets, armed deputies stood on guard outside the plants. Everyone kept moving. From the plants came word that men are returning to work in constantly increasing numbers. The

BILL OF LADING FOR FOOD ORDER ARRIVES

Part of Amount Purchased at Rushville Postoffice Has Been Shipped by Freight

PROBABLY FIRST DAY'S ORDER

Postmaster G. P. Hunt has received from the government the bill of lading for part of the surplus food ordered through the local postoffice, and its arrival is expected now almost any time. The bill of lading stated that only part of it was coming through, probably the first day's orders, and shipment has been made by freight from Chicago.

Upon its arrival here, the postoffice force will sort it out, and have it distributed according to the manner in which the orders were received by the postoffice here. Where case lots were ordered they will be delivered at once, but where less than case lots were ordered, some little time will be required in opening the boxes, and counting out the number of cans or packages ordered by the purchaser.

HIGH S.A. OFFICERS COMING

Brig. Simonson and Capt. Hopkins to Library Tuesday Night

Brigadier L. M. Simonson of Indianapolis, divisional officer, and Staff Captain Hopkins, province young peoples secretary, of Detroit will conduct a special Salvation Army meeting here next Tuesday night. Capt. Hopkins is said to be a great public speaker has been engaged in Salvation Army work in various countries. He was the officer in charge of the New York training college which Capt. and Mrs. J. A. Tench of this city attended. An open-air meeting will be held at seven o'clock and an indoor meeting at the church at eight.

GOVERNMENT AGENTS ARE WATCHING STRIKE

William J. Flynn and Assistants are Keeping in Close Touch With the Situation

REPORTS OF I. W. W. AGITATION

(By United Press.)

Washington, Sept. 25.—William J. Flynn, chief of the secret service bureau of the department of justice, today was in Pittsburg investigating the steel strike.

Through Flynn and a group of secret service agents scattered through the strike districts of western New York, Pennsylvania, West Virginia and Ohio, Attorney General Palmer is studying the strike and is keeping in touch with the entire situation, it was made known here today.

Palmer and all government officials since the strike began have been flooded with reports that I. W. W. leaders and other radical organizations and agitators are coming to Pittsburg in the hope of taking advantage of the strike to stir up rioting.

TAYLOR APPEALS TO CIRCUIT COURT

Is Fined \$25 and Costs and Sentenced to 60 Days at Penal Farm By Special Judge

TWO MORE CHARGES REMAIN

Chase Taylor, who was arraigned yesterday afternoon at four o'clock in police court, after having had his trial put off on several occasions, entered a plea of not guilty, but the evidence given caused Special Judge T. M. Green, to impose a fine of \$25 and a sentence of 60 days at the penal farm. The case was appealed to the circuit court.

The case yesterday was the assault and battery charge, and two witnesses testified for the state, they being the policemen, Newhouse and Lemmon, upon whom the alleged assault was committed. Several other witnesses were called, but were not needed. Two other charges in police court remain to be tried against Taylor, as the result of the affair of August 31, when he caused the police trouble with his automobile. An effort today was being made to get him out of jail on bond.

SOLDIER IS UNDER ARREST

Brownstown, Ind., Sept. 25.—A soldier from Ft. Benjamin Harrison was arrested here late Wednesday afternoon, after he is said to have tried to dispose of a government car first for \$50 and then for \$25. He is said to have been under the influence of an intoxicant when he reached here and he was arrested while asleep along the road.

CLASS FREIGHT BY TRACTION REDUCED

Decrease on Rate For Household Goods is Voluntary, According to I. & C. Officials.

HAUL LITTLE OF THIS CLASS

Local Line Does all of Freight Business it Can Handle—Effect Motor Trucks Not Felt.

The ruling of the state public service commission requiring traction lines of Indiana to cease charging higher class freight rates between different points in the state, than are charged by the steam lines, which was made this week, was at the request of the traction lines, whose representatives, at a meeting in northern Indiana last week, decided to make the voluntary decrease, according to officials of the Indianapolis & Cincinnati Traction company.

Recently the interurban lines were authorized by the commission to charge slightly higher rates for household goods, because it was felt by the traction companies that they could not handle this class of freight, due to their limited facilities, and they preferred that it be shipped over the railroads. Why they decided to return to the old rate is not explained.

The I. & C. hauls very little of this class of freight, except in small lots. Very seldom are household goods in carload lots accepted, because this traction line or very few in the state, for that matter is not equipped to do that kind of business. The I. & C. is now doing practically all the freight business it can with its present facilities.

The motor truck, which is being used extensively in hauling freight, has not made any inroads on the I. & C. business, officials state, such as it has in other parts of Indiana. There are a few truck lines running in opposition to the I. & C., but most of their business, it is stated, consists of hauling milk, during good weather. When the rainy season comes on and the roads get bad, farmers who depend on trucks to haul their milk, pile them up for the traction line and it is almost overwhelmed.

The traction lines have always had a complaint against the motor trucks because they have the privilege of tearing up the country roads, which all taxpayers maintain, for the nominal sum which they pay for a license, whereas the traction lines have to keep up theirs on roadbeds in addition to paying their share of the taxes to build and keep up the highways.

Says Objectors to Treaty Are Those Who Favored Germany

President Wilson Declares Hyphens And Knives Are Being Stuck Into Document, in Rousing Speech at Denver Today.

NOT QUESTION OF AMENDMENT

(By United Press.)

Auditorium, Denver, Colo., Sept. 25.—"Hyphens and knives are being stuck into this document," President Wilson charged today in a speech demanding acceptance of the peace treaty. He stated with emphasis that the accusations and objections to the treaty came from those that favored Germany in the war.

A demonstration continuing three minutes broke out when Wilson stated that he believed he had the support of the people of the United States.

Shouts of "You bet, Woodrow," and "We're with you old boy," filled

CRIMINAL CASE TRIED IN COURT

Arie Colestock Testifies He and Sanford Heaton Had Trouble Over Harnessing Horse

APPEAL FROM SQUIRE'S COURT

Case Expected to go to Jury About Five O'clock Today—Other Cases Disposed Of

In circuit court today, the case of the state against Sanford Heatos was being tried, and it was almost certain that the trial would be finished late today. Most of the morning was taken up in getting a jury to hear the case. Many selected had heard of the case before, as it attracted a big crowd at the time it was tried in Squire Stech's court.

Judge Sparks this morning heard Mrs. Letha Buckner in her appeal for her funds pending the trial of the divorce suit which was recently filed by Samuel Buckner. The matter was taken under advisement by Judge Sparks.

After the jury was obtained this morning, the state finished before noon with Arie Colestock, prosecuting witness, on the stand, and this afternoon the defense took the stand and introduced several witnesses.

On May 29, it is alleged that Heaton assaulted Arie Colestock, who was employed by him on his farm. The trouble came up over the harnessing of a work horse, Heaton who is an aged man, used foul language and had a bad temper, according to the prosecuting witness this morning. He attacked him, and threatened to do him harm, it was also brought out in the testimony this morning.

In July, the case was tried before Squire Stech, and the jury found for the state, imposing a fine on Heaton. He soon afterward took an appeal to the circuit court.

Yesterday afternoon, Judge Sparks heard the evidence in the case of the S. F. Bowser Company of Ft. Wayne against Mrs. Florence Duke, administratrix of the estate of Walter Duke, on an account of \$59.50. After hearing the evidence the judge decided in favor of the plaintiff, awarding them the sum demanded, the costs being paid by Mrs. Duke.

The case of R. W. Brown and N. W. Brown against George H. Sweet, as administrator of the estate of Dickson Sweet, on a note for \$310.36 was dismissed yesterday in court, by an agreement reached between the parties.

The case being tried today was expected to be submitted to the jury between four and five o'clock.

GAS IRON LEFT ATTACHED

Bad Fire Narrowly Averted at John Nipp's Home Today

The chemical truck from the fire station answered a call this afternoon shortly after one o'clock to investigate the cause of smoke coming from the house of John Nipp, 1009 North Main street, where it was stated that nobody was home. A gas iron had been left on the ironing board, and had burnt a hole through it, and when the firemen arrived, was gaining headway in the room, eating a hole in a rug. A serious fire would have resulted, had it not been detected in time. The loss is estimated at \$25.

BIDS. ON EQUIPMENT BE RECEIVED TONIGHT

City Council Meets Tonight to Get Estimates on Cost of Light Plant Improvement

TO CONSIDER USED MACHINERY

Tonight is the time set by the council for receiving bids for the machinery which is to be installed in the water and light plant. Many bidders are expected here, as the machinery will amount to about \$21,000, and the council will consider second hand equipment, as well as new.

The machinery which is needed is to be used to generate more electric current, and will relieve the strain on the present system. The plans are to enlarge the voltage so as to have double current. The purchase of additional machinery means the enlarging of the present building.

The committee which was appointed recently to investigate the building plans, will probably report at this meeting, or the next regular council meeting.

CORTEUR MAY BE SENT TO HIS HOME COUNTY

County Officials Believe Marion Should Stand Expense of a Sanity Inquest

HIS BROTHER IS NOTIFIED

Martin Corteur, the man who terrified people and threatened to do harm in the vicinity of Mauzy, Tuesday afternoon, was still in jail here today. He was supposed to be demented, and it was thought that a sanity inquest would be held, but officials seem to think that he should be sent to his home county, as he is a resident of Indianapolis, and not a Rush county citizen, and that they should bear the expense.

Sheriff Jones stated today that he had notified Joe Corteur, a brother of the man held in jail, who lives in Scottsburg, and that they would await his arrival before taking any procedure. In all probability Corteur will be turned over to the Marion county sheriff.

TO RESTORE RATE CONTROL

Washington, Sept. 25.—Without a record vote the house passed and sent to conference a bill granting authority to the interstate commerce commission to regulate rates with the same power it exercised prior to government control.

COONTZ GOES TO HIGH RANK

Washington, Sept. 25.—Secretary Daniels has announced the appointment of Rear Admiral Robert E. Coontz, to be chief of naval operations, the highest office in the navy. Rear Admiral Coontz, who will succeed Admiral William S. Benson on the latter's retirement tomorrow, now is in command of a dreadnaught division of the Pacific fleet.

LABOR OPPRESSION THE ROTTEN APPLE

John Fitzpatrick, Union Chairman, Says Steel Industry Will Contaminate Labor Situation

BEFORE SENATE COMMITTEE

Declares More Than Promise of Conference Will be Necessary to Get Strikers Back

(By United Press.)

Washington, Sept. 25.—The steel industry's "open oppression of steel is the rotten apple of the industrial situation," John Fitzpatrick, chairman of the strikers committee told the senate labor committee today.

Fitzpatrick was the first witness in the hearing authorized by the senate Tuesday when they passed the Kenyon resolution.

Just as a rotten apple will contaminate the entire barrel, so the steel industry is doing to the entire labor situation, he said.

This is the reason, Fitzpatrick said, why the steel industry must be organized now. Bad conditions in the steel industry, he said, were used to prevent getting better working conditions in other occupations.

More than the promise of a conference with steel officials is now necessary to get the striking steel workers back to the plants, Fitzpatrick, told the committee.

Fitzpatrick, first witness in the investigation authorized by the senate Tuesday, declared the refusal of the conference was the cause of the strike. But the workers will not go back to work until they get justice, he added.

Fitzpatrick made the statement under questioning of Senator Kenyon and told the senate that steel officials took every means to prevent unionization of their plants and declared bad conditions in the steel industry were used in order to prevent improved conditions elsewhere.

W. Rubin, steel worker, told of events leading up to the strike.

"Would the strike be called off if you had the consent of officials for a conference?" Senator Kenyon asked.

"I don't think so," Fitzpatrick replied.

"There is now grounds on which we can get together but the mere

FIRE GUTS GARAGE IN INDIANAPOLIS

Approximately 100 High Priced Automobiles, Average Value of Which Was \$2,000, Destroyed

STARTS FROM AN EXPLOSION

(By United Press.)

Indianapolis, Ind., Sept. 25.—Fire this afternoon gutted the garage of Horace Wood and destroyed approximately 100 high priced automobiles. Five hundred gallons of gasoline were stored under the building but the blaze was gotten under control before the blaze reached this.

Wood said that the fire started with an explosion among several cars which were stored in the back of the building.

For a time the three story building was threatened with destruction. All the workmen escaped.

The blaze could be seen for two miles around. Wood stated that the average price of the automobiles destroyed was \$2,000. He owned twenty of them which were used in the taxi service. The remainder belonged to patrons who had them stored there.

Within forty-five minutes the fire was brought under control.

LITTLE FEAR OF A COAL SHORTAGE HERE

One Dealers Says More People Have Laid in Supply Here Than Ever Before

SOFT COAL 50C MORE ON TON

If the coal miners go on strike November 1, the people of Rushville will not suffer much for the want of fuel, is the opinion of one Rushville coal dealer, who believes that more householders have laid in their winter's supply of coal, than ever before.

It is apparent that Rushville people have learned something from their experiences during the fuel shortage the last two seasons. They have bought heavily despite the fact that coal prices did not go down to the usual spring and summer levels. West Virginia coal, the kind most generally used here for furnaces and soft coal stoves, is only fifty cents more on the ton than it was last April. The price is \$7.50 a ton delivered. The increase in the cost of anthracite has not been much larger. The only difficulty is that anthracite is much more difficult to get than soft coal. Dealers have a waiting list for hard coal users.

TWENTY FREIGHT CARS HOGS GET BACK TO ARE PILED UP IN WRECK 18 DOLLARS TODAY

L. E. & W. Train Hits Horse Near Mallott Park, Ind., and 35 Head of Live Stock are Killed

TRAINMEN NOT BADLY HURT.

(By United Press.) Indianapolis, Ind., Sept. 25.—Twenty freight cars were piled up and thirty-five head of live stock were killed when freight train number 81, Lake Erie and Western railroad, was wrecked a mile north of Mallott Park early today. The wreck was caused by an engine striking a horse that had strayed on the track. The engine and twenty cars left the track. The train carried 300 hogs, 18 head of cattle, ten calves, and much valuable merchandise. Thirty hogs were dead and the remainder killed were cattle.

Cattle and hogs were wandering over the countryside and were being rounded up by officers.

All members of the train crew were from Peru but none of them was hurt seriously.

—Mrs. J. B. McCarty left today for a visit with her son, Carl McCarty, and wife of Knightstown.

Prices Advance 35 to 60 Cents in Indianapolis With Receipts 2-500 Less Than Yesterday

CORN STEADY AND OATS EASY

Hogs got back up to eighteen dollars in Indianapolis today, when a gain of thirty-five to sixty cents in prices was made, with receipts 2,500 less than yesterday. Corn was steady and prices were slightly lower, and oats was easy. Cattle and sheep continued steady.

N.Y. TO HAVE GERMAN PLAY

Director Amberg Has Already Selected Two Copies.

(By United Press.) Berlin, (By Mail)—New York will soon have its first German plays since the war started. Director Amberg of Shuberts, who has been a "scout" for that organization for many years, has been visiting German theaters and has already selected two comedies known as "Logenbruder"—(Lod Brothers)—and "Ratschbahn"—(a slide or toboggan)—which he expects to have ready for New York showing by the holidays. They will be given American names and revamped to meet American theatrical tastes.

OUTBREAKS TODAY IN 2 STEEL TOWNS

Continued from Page One
steel companies regard the situation as very favorable.

Meanwhile strikers hope for aid from Washington in the fight they have now begun against the action of the state police on denial of the right of free speech and assemblage under a proclamation issued by local authorities.

PLATON ROZSCHESTEVSKY

Platon Rozschestevsky, metropolitan of Odessa, and one of the highest dignitaries of the Russian church, who comes to the United States to make an appeal for his country. The prelate, who is an avowed enemy of bolshevism, arrived from Novorisk on the Vladimir after fleeing Russia because the bolsheviks had placed a price on his head.

Constitution of the Indiana Federation of Farmers' Assn

Object of organization and plan of operation fully set forth in constitution and by-laws of body.

In compliance with the great number of requests received from all parts of the county we are publishing the complete Constitution and By-Laws of the Indiana Federation of Farmers' Associations.

Constitution

ARTICLE I

Section 1. The name of this Federation shall be the Indiana Federation of Farmers' Associations.

Section 2. The object of this Federation shall be to promote the general interest of agriculture by studying the methods of production and distribution of farm products with a view of working out a system of greater economy and efficiency in handling and marketing the same; to encourage the production, marketing and distribution of live stock, to encourage and promote the co-operative organization of farmers and of those engaged in the secondary industries or mutual helping in a more efficient organization of the business of agriculture; to publish and issue reports, bulletins and instruction generally which will help in spreading knowledge of the best means of rural betterment and organization to effect a system of effective co-operation between the several county farmers' organizations throughout the state; to encourage and co-operate with educational institutions, societies and the several local organizations in all efforts to solve the questions relative to rural betterment and agricultural science; to co-operate where necessary in the purchase of seeds, fertilizers and such other commodities as may from time to time seem necessary and advisable; to make thorough study of all legislative matters and use our influence in securing the enactment of wise legislation and the defeat of unwise legislation.

In short the Indiana Federation of Farmers' Associations is formed for the purpose of promoting co-operation between the several county farmers' organizations of the state and the members of such organizations, increasing their efficiency and extending their usefulness. It is intended to secure co-operative action in advancing the common purpose of its members; uniformity and equity in business and laws and proper consideration and concentration upon questions affecting the financial, commercial and civic interests of the state.

ARTICLE II

Section 1. The membership of this Federation shall consist of the several county farmers' organizations of the state.

Sec. 2. Every applicant for membership in this Federation shall present an application in writing, accepting and agreeing to abide by the constitution and by-laws and any amendments thereto. Such application shall be submitted to and acted upon by the Board of Directors hereinafter provided.

Application for membership shall be acted upon by the Board of Directors at the first meeting of said Board following their receipt. A two-thirds vote of the Directors present shall be necessary to elect.

Sec. 3. Any member may withdraw from this Federation by submitting to the Secretary a written resignation accompanied by a remittance in full of all dues to date.

ARTICLE III

Section 1. Each county organization in good standing holding a membership in this Federation shall be entitled to one voting delegate to represent such county farmers' organization at the annual meeting or any called meeting of the State Federation of Farmers' Associations.

Sec. 2. All delegates so elected shall be members in good standing with the County Farmers' Associations which they represent.

ARTICLE IV

This Association is to be affiliated with other similar organizations that may from time to time be organized in other states and have for their purpose the same as this, and shall be auxiliary to any national organization of like purpose.

ARTICLE V

This Constitution may be amended at any annual meeting, or at any special meeting called for that purpose, by a two-thirds vote of all members present, provided such amendment has been approved at a previous meeting of the Board of Directors and submitted in writing to the members at least one week previous to the meeting at which such amendment is to be acted upon.

ARTICLE VI

Section 1. The Board of Directors shall meet quarterly and shall have supervision over all the affairs of this Federation; shall actively prosecute its objects and shall have control over the disbursements of its funds. It may adopt such rules and regulations for the conduct of its business as it shall deem necessary and may in the execution of its power appoint such agents as it may think advisable.

Sec. 2. The majority of the Board of Directors shall constitute a quorum and any less number may adjourn from time to time until a quorum is present.

Sec. 3. All officers of the Federation shall be paid \$5.00 per diem and necessary expenses while engaged in official duties.

ARTICLE VII

Delegates

Section 1. The delegates elected by the several county farmers' organizations shall receive certificates of election, signed by the President and Secretary of their respective organizations, and duplicates thereof shall be legally mailed to the Secretary of the State Federation after such delegate has been named. Delegates shall receive \$5.00 per diem and necessary traveling expenses when attending meetings of the Federation.

Sec. 2. The time for electing delegates by the several county farmers' organizations which shall represent them at the annual meeting of the State Federation, shall be on or before the last Saturday in October of each year.

ARTICLE VIII

Committees

Section 1. The President shall have the power to appoint, with the approval of the Board of Directors such committees as they deem necessary. These committees shall keep full and complete reports of all meetings held.

ARTICLE IX

Amendments

Section 1. These By-Laws may be amended or added to at any meeting of the Federation upon the affirmative vote of a majority of all the delegates present at any regular or special meeting of this Federation.

BY-LAWS

ARTICLE I

Dues.

Section 1. The annual dues paid by each county organization joining this Federation shall be a minimum fee of One (\$1.00) Dollar for each and every member belonging to the county organization, but in no case shall the total amount paid by each county organization joining this Federation be less than Two Hundred (\$200) Dollars per annum. For the fractional year from March 25, 1919, to the third Tuesday in November, 1919, each county joining this organization shall pay only \$200.00.

Sec. 2. If any member of this Federation shall fail or refuse to pay their dues within a period of sixty days after the same become due; the membership of such member shall then stand suspended. The Board of Directors may, however, at its discretion and upon such terms as it may deem necessary and proper, restore such member to good standing. The time for payment of annual dues shall be at the time of the annual election held in November of each year.

ARTICLE II

Time and Place of Meeting

Section 1. The annual meeting of the Indiana Federation of Farmers shall be held in Indianapolis, Indiana, on the third Tuesday of November of each year. Notice of the time and place of each annual meeting shall be mailed to each member at least twenty days before the time of such meeting.

Special meetings may be called by the President when same is deemed necessary and shall be called by

him when requested in writing three members of the Board of Directors. Notice of all special meetings shall be sent by the Secretary of this Federation to the secretaries of each county farmers' organization at least ten (10) days prior date of such meeting. In case of special meetings such notice shall give the object of the meeting and the subject to be considered.

Sec. 3. At all meetings of the Federation a majority of all the delegates shall constitute a quorum.

ARTICLE III

Elective Officers.

Section 1. The elective officers of this Federation shall be a President, First Vice-President, Second Vice-President and ten directors, one director to be elected from each of ten districts of the state by delegates from said district, sitting in a separate body. Said district to be composed of the following counties:

Sec. 2. The Directors elected to the Second, Fourth, Sixth, Eighth and Tenth Districts shall serve until their successors are elected, qualified in November, 1920, and Directors from the First, Third, Fifth, Seventh and Ninth Districts shall be elected to serve until their successors are elected and qualified at the first annual meeting November, 1919. At each meeting hereafter the districts in which the term of the directors expires, shall elect the director to serve for a term of years.

Sec. 3. The President, First Vice-President and Second Vice-President shall be elected annually by the several state delegates to annual meeting and both Vice-Presidents shall have the same voting power as other members of the Board of Directors.

In case of vacancy of any of the above officers, the Board of Directors shall have the power to fill such vacancy and such member shall serve until his successor is elected and qualified at the next annual meeting.

The voting power of the President shall be used only in case of a tie.

Sec. 4. The President shall preside at all meetings of the Federation; he shall be a member ex-officio of all regular and special committees and shall perform such duties as are usual for such an officer.

The Board of Directors shall annually elect a Treasurer and a Recording Secretary, to hold office one year or until such time as their successors are duly elected and qualified.

Sec. 5. The Vice-President shall perform the duties of the President in event of disability or absence from meetings.

Sec. 6. The Treasurer shall receive from the General Secretary moneys paid to the Federation and shall disburse money upon the written order signed by the General Secretary and countersigned by the President or some one delegated him to perform this duty. He shall carefully account for all funds and shall make full report of all transactions to the annual meeting, or any time upon demand of the President.

The Treasurer shall furnish liability bond approved by the President and Board of Directors at the cost of same shall be paid by the Federation.

Sec. 7. There shall be a General Secretary appointed by the Board of Directors. It shall be his duty to keep thoroughly posted on all affairs of the Federation and inform all members of the Federation regarding matters of interest to them. He shall receive all moneys that may be paid to him by virtue of his office and shall carefully account for the same, and promptly pay them into the treasury, taking the Treasurer's official receipt for same and keep a complete and accurate record of a funds of the Federation. He shall have possession of all records; attend to the proper publication of a reports; conduct the Federation correspondence and perform such other duties as may be required of him by the President and the Board of Directors.

The Secretary shall furnish a liability bond approved by the President and Board of Directors and the cost of the same shall be paid by the Federation. —Adv.

Public Sale

We will sell on the Thayer Farm, 2 miles south of Morristown, Ind., on

Monday, Sept. 29th

BEGINNING AT 12:30 P. M.

62 HEAD BIG TYPE POLAND CHINA HOGS

The offering consists of 21 extra fine growthy yearling gilts, some of which will sell with breeding privilege to Victory Buster 345091, our new herd boar, which we recently bought at a long price; 29 Spring Gilts, a very choice lot; 10 Spring Boars, including one sired by Long Big Bone 2nd, the 1100 pound boar which won Grand Championship at our recent State Fair; 1 September yearling; and 1 March yearling; a tried boar, which has made good as a number of the best pigs we have sired by him.

We have the largest herd of Pure Bred Hogs in Shelby county, now numbering between 400 and 500 head, thereby enabling us to cull closely and put up a very choice offering.

Our old herd boar, Big Bone Multiplier is, we believe, the most prolific breeding boar we know of, having sired \$20,000 of pigs, most of which have been sold by weight on the market within the last year.

If you want to increase the number of pigs farrowed in your herd just come to our sale and buy a boar or some gilts sired by him.

Just take a day off and attend this sale whether you wish to buy anything or not and we assure you we will furnish you a hog show worth your while.

SALE WILL BE HELD IN LARGE TENT RAIN OR SHINE.

Lunch served by Ladies Aid of Morristown Christian Church.

—Mrs. J. H. Gesser left today for her home in Knoxville, Tenn., after an extended visit with her daughter, Mrs. Will B. Norris, south of Carthage.

—Mrs. St. Clair Parry came today for a visit with her mother, Mrs. George Giffin, and her sister, Mrs. Christina Mauzy, of North Perkins street.

—Benjamin Cox, formerly of this city, left this morning for Chicago, where he is a student in the University of Chicago. He has been visiting friends here for a few days.

—Mr. and Mrs. Louis A. Kramer of Chicago, Ill., who have been touring the East, were expected here today for a visit with Mr. and Mrs. H. A. Kramer and Mr. and Mrs. Bert Mullin.

—Mr. and Mrs. Earl Payne and daughter arrived home yesterday from a nine weeks trip through the West and Northwest. They spent some time in Alaska and also went through Yellowstone park.

—Will Foley of Topeka, Kansas, is here at the bedside of his sister, Mrs. Frank Wilson, who is suffering with spinal meningitis. Gale Foley of Florida, another brother, was expected to arrive this afternoon. Mrs. Wilson's condition was reported today to be slightly improved.

ONE DEAD, TEN BADLY HURT

Street Cars Collide Near Entrance To Gary Steel Plant Today

Gary, Ind., Sept. 25.—One man is dead and ten others on the operating table in a local hospital in a critical condition and may die as the result of a collision today of two street cars at the gates of the American Sheet and Tin Plate plant here. The men injured were badly mangled.

HAY BRINGS \$33.50 A TON

What is regarded as a record price for a ton of alfalfa hay was paid at the N. P. Jones sale Monday, when a ton of hay sold for \$33.50. Mr. Jones stated that at this price an acre of ground would yield approximately \$120 worth of hay.

RESTLESSNESS IN ITALY OVER FIUME

Only Premier and Foreign Minister Know Measures to be Used to Suppress D'Annunzio

COUNCIL IS RARELY CALLED

Rome, Sept. 25.—With all parts of the country aroused over the tenseness of the Fiume situation, Italy was nervously awaiting the decision of the crown council which meets today for the first time since 1882.

Apparently only Premier Nitti and Foreign Minister Tittoni know the proposal which will be made to the program to suppress Gabrielle d'Annunzio, but it is generally believed that they will be drafted.

Nitti's adversaries assert that his resignation will solve the Fiume crisis and quiet the country.

"We are not on the eve of revolution or on the verge of bankruptcy," said one Roman paper.

WOULD-BE BRIDE ASKS \$15,000

Columbus, Ind., Sept. 25.—Miss Oma Orr, daughter of Perry Orr, of Wayne township, has brought suit against John Beam a wealthy Bartholomew county farmer, for breach of promise of marriage, demanding \$5,000. The plaintiff alleges the defendant proposed marriage, that she accepted, and the date for the wedding was set for August 21, 1918. The defendant left to avoid the marriage, she charges.

JAPAN IS HIT BY THE HIGH PRICES

Not Long Ago Foreign Resident Could Live Like a Food Profiteer on Small Income

DISTRESS ALL THE DEEPER.

Government Prepares Measures Against Profiteering But They Seem to Have no Effect

By RALPH H. TURNER.
(U. P. Staff Correspondent.)

New York, Sept. 25.—Out in Japan, the time was—and not so long ago, either,—when the foreign resident could live like a food profiteer on an income that wouldn't maintain parlor, bedroom and bath in the "States".

A clap of the hands speedily brought forth a retinue of servants whose aggregate salary would scarcely supply Coney Island money for a New York "domestic". A monthly rental of \$20 to \$50 obtained a house roomy enough to accommodate two or three families of American apartment dwellers. And the food bill, including afternoon tea and generous entertaining for the rest of the "colony", would just about settle for the butter and eggs at the corner grocery in this country.

But now—!

Japan, like every other civilized land, has been struck head-on by the high cost of existing.

Roderic C. Penfield, American representative of the World Salesman, published in Yokohama, who has just returned from the Mikado's domain, told to-day how high prices have hit that country.

"Distress in Japan is ill the deeper," Penfield said, "and official alarm all the keener, because of the wide gap which was spanned when prices jumped to the present level, almost equalling costs in the United States."

"It is predicted that the high cost of living will cause even greater trouble in Japan this fall than occurred a year ago, when the leading cities were the scene of serious food riots. The rice shortage already has begun to assume a threatening as-

pect. There is scarcely any reserve stock in Korea, most of it having been sent to Siberia to supply the Japanese army.

"The Koreans, moreover, have planted much less rice than usual, arguing that whatever the size of the crop, the Japanese government will commandeer it at low prices. The Chinese, also, are hesitating to export rice to Japan, feeling they will need it themselves.

"The government has prepared measures against hoarding and profiteering, but so far they seem to have had no effect.

"Servants, who, because of their low wages, always have offered foreign residents an advantage over life in America, are now demanding nearly twice their former pay. Through their guild, they are able to enforce many of their demands. In one case an American family, because it owned an automobile, was ordered to employ a man servant instead of a woman. It was held that if the family could maintain a motor car, it could afford to pay a man's wages.

"House rents have gone up from one third to one-half. Coal is about \$14 a ton, kerosene is 50 cents a gallon and gasoline is about a dollar a gallon.

"Custom-made silk shirts, which in the old days were the supreme delight of the American tourist at \$4 or \$5 apiece, now cost from \$7 to \$10.

"And rikisha fares—no longer will a coolie pull you all over town for half a dollar. 'Shorter hours, higher pay and lighter loads' is the slogan to-day of the rikisha men's union."

Laundry, according to Penfield, is the only remaining item of cheapness in Japan.

"It was somewhat of a jolt," he said, "to learn when I reached San Francisco that I must pay 35 cents to have a silk shirt laundered and 75 cents for a dress shirt. In Japan the standing price was four cents a garment, whether it was a cotton undershirt or a dress shirt with 'boiled' bosom."

DUBLIN.—West of Ireland process servers have notified the county court judges, that failing an increase in salaries, they will strike and tie up the business of the civil courts.

The High Pitch of the Fall Shopping Season finds Casady's Prepared

with the largest and finest stock of new Fall Suits, Coats, Blouses, Skirts, Furs, Piece Goods, Hosiery, Underwear, Blankets, Dress Accessories, Rugs, Carpets, Linoleums, Window Shades, Curtain Materials, Etc., it has ever been our pleasure to display. Lansing's Silence.

Secretary of State Lansing's silence on the charges of William C. Bullitt that he disapproved many things in the peace treaty, serves to lend emphasis to the rumor that the secretary of state will resign. Such rumors were in circulation before Mr. Lansing returned from the Paris conference in which he played a minor part, they were in evidence again when he returned to this country and now they are once more audible. Recent stories concerning the resignation, in fact, have come from the president's special train and have attracted particular notice.

In the absence of an exact official statement concerning the relations between Mr. Lansing and the president, it can be said that the impression is growing stronger constantly that Mr. Lansing will not long remain in the cabinet. One report is that he will leave it as soon as the senate disposes of the peace treaty. It has been for months almost a mystery how Mr. Lansing can permit himself to remain in the cabinet in view of the well known fact that he does not sanction some of the important phases of the peace treaty and, more than that, is flatly opposed to some of these features. That he had no liking for the Shantung transfer which the Japanese induced President Wilson to sanction is well understood. The recent testimony of Mr. Bullitt, who was for a time close in the confidence of Colonel House, telling how utterly Mr. Lansing disapproved many things in the treaty and covenant, has given rise to no end of comment to the effect that the continuation of Mr. Lansing as head of the state department seems almost incredible.

The testimony given by Mr. Lansing himself before the senate foreign relations committee in which he displayed an astonishing lack of knowledge concerning many things which were taken up by the president and the representatives of other powers is likewise looked upon in many quarters in Washington as making much further tenure of office by the secretary of state as unlikely.

The opinion is freely expressed here that if Secretary Lansing, with out waiting for the senate to act upon the peace treaty and the league covenant, were to resign and to tell the American people openly and frankly what he thinks of certain of the negotiations at Paris and the results of those negotiations and also the probable future effect upon the United States of those negotiations, he would be doing the greatest public service of his career.

Your Neighbor's Yard
We all take a look at our neighbor's yard as we pass by. If it is attractive, and appeals to the eye, we have something nice to say of it, or we think it without saying.

16799 DIED

GOLD MEDAL HARLEM OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Holland's national remedy since 1896. All druggists, three sizes. Guaranteed. Look for the name Gold Medal on every box and accept no imitation.

Sap and Salt

By BERT MOSES

Life is just a chase after the dough.

The sooner you get experience, the less it will cost you.

What we need in public office are men with more push and less pull.

There is only one problem in politics—how to get graft out and honesty in.

The reason a lot of people don't go into debt is because no one will trust them.

Hez Heck says: "The devil never married because he was shrewd enough to see that he had troubles enough without a wife."

bor's yard as we pass by. If it is attractive, and appeals to the eye, we have something nice to say of it, or we think it without saying.

If it is rusty, and weather beaten, and neglected, we wonder what ails our good friend across the way. We may even pity him in his apparent inability to keep up to date.

In time we may even begin to look upon that yard as a sort of eye sore, and become just a little peeved at his carelessness.

Because, you know, we do not think much of careless people, anyway.

But what of our own yard?

Do we give it that care and attention that insures it from just such thoughts and remarks by our neighbor?

Do we look it over carefully each week, with a view to eliminating the undesirable, and enhancing that which beautifies the community?

Are we a beautifier, or just a critic?

If every man will take this little lesson home, and give it serious consideration, it will be but a short time when we will criticize our neighbor's yard, and our neighbor will not criticize ours—because there will be nothing to criticize.

Since America is a land of producers, it would be quite in order to produce a little harmony, sanity and cohesiveness. Pulling at both ends only widens the breach in the middle.

There is one overpowering reason why country editors never go on strike. The "devil" might seize the office and get out a better sheet.

Soft drinks are going up, they say. Of course—before they go down.

Most men are willing to be ruled by the majority, provided they constitute the majority.

Somehow, these days we do not see much of that familiar label "Made in Germany".

Amusements

Episode 9 at Mystic

Episode Nine of the Elmo Lincoln serial, "Elmo the Mighty," will be shown at the Mystic Theatre today. The action continues fast and furious in this episode, and the "Masked Phantom" again appears on his motorcycle just in time. This episode works up to an intense climax, with a real thrill.

Charming Picture at Princess

Charming indeed, is the story of "True Heart Susie," David W. Griffith's new picture which will be shown at the Princess theatre today and tomorrow. It is one of those pastoral themes which rise to the dignity of screen classics by reason of the artistry of this master producer, and which invariably hold their own against criticism.

In this fascinating story of a little Hoosier girl who loves a boy with rare devotion, the heart interest is supreme and the suspense wonderfully compelling. Susie May Trueheart loves William Jenkins so well that when a politician fails to keep his promise to send William to school, she sells butter and eggs

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

A prominent jeweler of Toledo, Ohio, is a self made man. When quite a small boy, the youngest of a family of five children, his mother became a widow. Father carried no insurance and the estate consisted of a homestead, heavily mortgaged. The good mother took in boarders and by this means forced the wolf to seek other doors. At that it was hard skidding. As is usual in such cases the two boys grew up and made good and the three sisters married well. The mother still lives and in much comfort.

This summer Sam, the jeweler, returned to the family homestead which is covered with crimson ramblers instead of mortgages and he and his mother talked over old times. "Sam," she said, "do you remember how I made you wait until the boarders finished their meals before you were fed?" "Yes, mother I do." "And do you remember once when I couldn't give you dessert because Bill Tate had taken a second helping?" she asked. "Yes, mother I do," he replied. "That must have been pretty hard for you to bear," the mother volunteered. "Oh, not nearly as hard on me as on Bill," said the son. "Why I don't understand?" from the mother.

"Well, mother, I looked in the window and saw Bill take that second helping so I just waited until I got through. Then I went over to his home, found him in the backyard and if ever a kid got a licking Bill did."

(Contributed by G. C. Clark, Toledo, Ohio.)

Contributions will not be returned unless stamped envelope, bearing your address, is enclosed. Mail stories to contest editor, Daily Republican.

and even her cow to raise funds for the purpose. So it happens that William goes to college, but he is unaware that his good angel is Susie to whom he writes desultory letters.

So it happens that when he leaves college and is ordained a minister, he comes to his home as pastor of the village church. Then the tragedy of poor Susie's life is born. William weds a flighty beautiful girl who repays his love by accepting the attentions of less worthy men. But she is punished by fate. Susie, although she never has forgotten that she was the bearer of flowers at the wedding of the man she loved, protests his erring wife, and it is only after the latter's death that William comes to a realization of Susie's great love and both find happiness.

Sweet Lillian Gish plays the part of Susie and Robert Harron is William Jenkins. Clarine Seymour plays the role of Betty the butterfly wife. The support generally is of the finest grade.

The Hot Blast Air Tight FLORENCE

Beware of imitations or people who claim to have a stove like or just as good as the FLORENCE. Do not be deceived by such false claims and find out when too late. Examine the Florence carefully before you buy.

The FLORENCE will burn WOOD as well as coal and will burn coal better than any other stove made

The Only Absolute Smoke Consuming Stove on Earth
No Smoke! No Soot! No Dirt! No Clinkers!
Everything is Consumed

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire keeping principle.

It will be as good a fire keeper twenty years hence as it is today.

The HOT BLAST AIR-TIGHT FLORENCE will heat twice the space that can be heated by any other stove on earth at one-half the cost. The only perfect floor heater that is or has ever been made.

All features are patented and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal, wood, slack and all the smoke and gasses. No filling up of the stove pipe or flue with soot. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

Prices from \$29.00 to \$58.00. Why pay \$15.00 to \$20.00 more for other makes of stoves when they will not equal the FLORENCE

MARINES MAY ENLIST FOR A SHORTER TERM

President Wilson Has Directed That Enlistments May be For Two, Three or Four Years

FORMERLY FOUR YEAR JOB

Washington, Sept. 25—Officers of the Marine Corps are looking forward to a marked increase in the number of enlistments in that branch of the service due to the fact that President Wilson has directed that enlistments in the Marine Corps, until June 30, 1920, may be for terms of two, three, or four years.

While enlistments in the Marine Corps have shown steady increase in recent months, recruiting officers say that many men who desired to serve with the Marines have declined to enlist for four years and have gone into some other service where the enlistment period was shorter.

The following telegram announcing the change was sent to all recruiting officers of the Marine Corps today: "The President has directed that enlistments in the Marine Corps until June 30, 1920, may be for terms of two, three or four years and all laws applicable to four year enlistments shall apply under such regulations as may be prescribed by the Secretary of the Navy to enlistments for a shorter period, with proportionate benefits upon discharge and reenlistment."

BOMBS KILL 3 PERSONS

Batavia, New York, Sept. 25—The Black Hand is believed to be responsible for the wrecking by bombs of a dwelling house here early today, resulting in the death of three persons and injury to four.

Nearly 1,000 tons of ground limestone will be applied to wheat ground in Daviess County this fall, County Agent D. D. Ball estimates, as a result of demonstrational work to show the value of limestone on acid soils.

GERMAN REPUBLIC SEEKS DIPLOMATS

Difficulty Arises From Fact Some
Men Would be Persona Non Grata
At Certain Capitals

SOLF MAY COME TO AMERICA

Distinguished Himself in Germany
Last Winter by His Open
Breach With Haase

By CARL D. GROAT
(U. P. Staff Correspondent.)

Berlin. (By Mail).—The new republic is finding selection of diplomats a real job. Of course, it isn't entirely necessary that Germany make out a whole slate of ambassadors and ministers just yet, particularly if entente nations only send here charge d'affaires. But the policy of the government will probably be, in such an event, to send out charges and consuls—the charge perhaps being the man intended for the higher post of minister or ambassador when full diplomatic relations with the outside world are resumed.

Germany's difficulty arises from the fact that some of the men of the old diplomatic service would be persona non grata at certain capitals, while the new regime so far has not produced many big prospects of ambassadorial size.

So far, in connection with the American ambassadorship, only two names have been much mentioned—Maximilien Harden and Dr. Solf, the former colonial minister and later foreign minister in the closing days of last year.

Harden hasn't a chance to go to the Washington post. He has made more or less of a name for himself in America—but that doesn't count for anything with the present situation. In fact he isn't taken seriously by the present government in that connection.

On the other hand, Solf has considerable backing for the place. He appeared during the war as an opponent of many of the government's policies; and as foreign minister last winter stuck strongly for strict adherence to the "Fourteen Points" in application of the peace to Germany. He speaks English, and is known in many prominent American and English quarters, has traveled extensively, met Presidents Taft, Roosevelt, McKinley and has been a close student of President Wilson's policies. He and Col. House were friendly before the war.

Solf looks, at first glimpse, somewhat like American Secretary of Interior Lane, though he is of heavier build and of more rugged countenance than the American.

Solf distinguished himself—in Germany at least—last winter by his open breach with Haase, leader of the independents. Solf declined to associate with Haase, holding that as leader of the independents he was cognizant of a big "slush fund" which the Russian Bolsheviks had placed in the credit of the radicals here in Berlin. This caused quite a sensation and helped undoubtedly, in foreign countries, to show that there was no government alliance or sympathy with the Lenin-Trotsky regime.

He is of about middle age, active, diplomatic, highly educated and according to many substantial Germans he would be a good representative of the new republic.

Former American Ambassador

DECLARE PRESS AGENTS MUST DIG UP NEWS

Publicity for American Corporations
Is Legitimate Only When Based
on Public Interest

ADDRESS TO ADVERTISERS

New Orleans La., Sept. 25.—Publicity for American corporations is legitimate only when it is based on public interest in the information it contains, it was declared by James I. Clark, manager of the service department of the National Bank of Commerce in New York, at an address here to-day before the Financial Advertisers' convention.

When built on this principle it is not only a guide post to clear thinking set up by the public, but a contribution to the success of the newspaper that publishes it, Clarke said. "The benefit to the institution whose name becomes an essential part of the news value, should rightly be incidental, although for that very reason more certain, lasting and dignified."

Bernstorff is known to regret that his position with the American people is such that he could not again become ambassador to Washington. While he has been booked for the Rome post, it is possible that he will decide to abandon diplomacy in favor of politics, and run for the Reichstag in the coming elections.

The British and French posts do not even have any "among-those-mentioned" people. It isn't a case here of difficulty in finding places "for all the deserving"—but rather of finding "deserving" and capable men for the places.

Four herds of cattle in Clay County have been tested for tuberculosis since the work started recently, County Agent H. E. Albott reports, and not one afflicted animal or reactor has been found in the entire lot of 45 head.

PRINCE ALBERT

"SAFETY WEEK" IS CELEBRATED

Three Thousand Safety Engineers
and Experts are at Cleveland To-
day in a Conference

DISCUSS SAFETY IN INDUSTRY.

On Sunday Ministers of Safety Will
Preach on Subject "Stop, Look,
and Listen"

Cleveland, Ohio, Sept. 25.—Three thousand safety engineers and safety experts from all parts of the country were here to-day in a conference on how to make life and limb safe in industry.

They represent the National Safety Council at the eighth annual congress of that organization. In conjunction with the congress, Cleveland is celebrating "Safety Week" in an endeavor to demonstrate that carelessness is responsible for 75 per cent of all accidental deaths and injuries.

The safety congress has mobilized a vast and varied assortment of advertising matter bearing on the subject of safety. Cleveland is literally a huge billboard, upon which is pasted posters of every size and color, bearing printed and pictured mottoes, slogans and adjurations dealing with saving life and limb on the streets, factories, homes, railroads and even the waters.

On Sunday these ministers of safety will preach the gospel of "Stop, Look and Listen" from the pulpits of all the churches. The menus in all the restaurants fear the shibboleth of "Safety First". The street cars are plastered and hung with similar signs. "Safety First" stares at the pedestrian from every point where it can be hung, nailed, pasted and propped.

The congress will be in session one week. Two days will be devoted to women in industry. Ida Tarbell, Miss Mary Van Kleeck, director of women in industry service of the United States department of labor, and other women and men well known in safety work will talk at the scheduled 35 sessions.

LONDON.—Sentenced to one month's imprisonment at Sunderland, Peter Lee, shipyard laborer, yawned and asked languidly if it carried "hard labor". "No" said the magistrate, and Peter yawned again.

The Martha Poe Chapter, No. 143 O. E. S. will have a practice meeting at three o'clock Saturday afternoon in the Masonic Temple.

The Ladies Aid society of the First Baptist church held a business meeting in the parlors of the church yesterday afternoon. At this time arrangements were made to give a penny supper Friday evening, October 10.

Miss Mary Jane Carr was hostess for the Psi Iota Xi sorority last evening at her home in North Perkins street. No business of importance was transacted at the business session, the hour being spent socially, during which refreshments were served to the guests present.

Mrs. Harvina Gray, Mrs. Rachel Buell, Mrs. Fanny Hinchman and her sister, Mary E. James of Portland, Oregon, spent the day yesterday as the guests of Mrs. W. H. Smelser. All were school children together, with the exception of Mrs. Gray, and they enjoyed the day immensely.

The guests who attended the forty-fifth wedding anniversary of Mr. and Mrs. James Smith of near Falmouth, Tuesday, were: Mr. and Mrs. Wade Sherman, Mr. and Mrs. John Nipp, Sr., Mrs. Elwood Kirkwood, Mrs. Cliff Haskett, Miss Iva Daubenspeck, Mr. and Mrs. Vern Smith and son Ralph, Mr. and Mrs. Harvey Arnold and Miss Lucy Vance.

Mrs. John Morris entertained the members of the First Presbyterian Aid society yesterday afternoon at her home in North Jackson street.

The regular business program and social time was enjoyed and at the close of the afternoon dainty refreshments were served. The assisting hostesses were Mrs. M. V. Spivey and Mrs. John Q. Thomas. Twenty-three members were present.

Mrs. Paul Morris was hostess for a miscellaneous shower Tuesday afternoon at her home south of the city, honoring Miss Helen Norris, a bride-elect. The house was beautifully decorated with goldenrod and the color scheme of pink and green were carried out in the refreshments which were served late in the afternoon. Thirty guests were present to enjoy the afternoon socially and with music. Dainty favors, consisting of tiny baskets of ping-pong with a cupid mounted on top were given out. Miss Norris received many useful gifts.

Miss Margaret Kirk was delightfully surprised by a number of her girl friends last evening, the occasion being her 15th birthday. At six o'clock a delicious three course supper was served, the color scheme being pink and blue. The table was adorned with a bouquet of bitter sweet and covers were laid for Norma Oneal, Allene Geraghty, Mary Mullins, Florence Cooning, Alice Montgomery, Leah Schatz, Margaret Trader, Anna Beardon, Eloise Kelley, Helen Kirk, Dorothy Schatz and Master Joe Buschmohle, Jr. The Misses Libby Schatz and Bertha Moore were the assisting hostesses.

The Women's Relief Corps met yesterday afternoon in regular session at the G. A. R. room in the court house. After the regular business session, and interesting program was given as follows: reading on Jennie Lynn, the great singer,

by Mrs. Havens; reading, "Mending the Old Flag," Mrs. Selman Webb; reading, "The Keepers at the Gate," Mrs. Phoebe Phillips; reading, "Flanders Field and the American Answer to It," by Mrs. Ida Lee; reading, "That Lillies Grow in Flanders Fields as Well as Poppies," Mrs. Alice English. Talks were given by Mrs. Sonders of Kansas, and Mrs. Gupton of Kirksville, Missouri, who were delegates to the national convention at Columbus.

The wedding of Miss Leila Kennedy, daughter of Mr. and Mrs. Jesse Kennedy of Indianapolis, and Cullen Sexton, son of Dr. and Mrs. J. C. Sexton of this city, will take place at high noon Saturday, in the Methodist church at Irvington. Only the members of the immediate families and a few friends will be present.

C. W. Schaeffer of Cincinnati, who will be best man at the wedding arrived here today to be the guest of Mr. Sexton. Miss Dorothy Sipi of Carthage will be the other attendant. Following the ceremony, the bridal party will go to the Columbia Club for a wedding breakfast and at three o'clock the bride and bridegroom will leave for a wedding trip to Cleveland, Ohio. They will be at home in a furnished apartment in Cincinnati.

Miss Kennedy is the grand daughter of Robert Kennedy, 341 West Tenth street and is well known in Rushville, where she has frequently visited.

There will be a call meeting of the Dr. Gilbert class of the Main Street Christian church tomorrow evening at the home of Mrs. Ed Chambers in East Seventh street. A good attendance is desired as business of importance will be discussed at this time.

MRS. J. S. FRELINGHUYSEN

TAX DUPLICATE SHOWS BIG RAISE

Preliminary Compilations of State Board of Tax Commissioners Show Increase of 150 Percent

JUMP IN PERSONAL PROPERTY.

Tax Duplicate Will be Increased From \$2,405,391.661 to More Than Six Billion Dollars.

Indianapolis, Ind., Sept. 25.—The total tax duplicate for the State of Indiana will be increased from \$2,405,391.661 to \$6,028,588.491 or 150 per cent, according to the preliminary compilations of the State Board of Tax Commissioners.

In other words, the duplicate this year is almost exactly two and one-half times the duplicate of last year. In accordance with the provisions of the new tax law, the tax rate for the state as a whole cannot exceed two-fifths of the rate now prevailing. There will be some changes in the valuations of property and the two-fifths rate will not apply specifically in every local jurisdiction. The rate will be higher in some municipalities, especially where more revenue is necessary on account of loss of liquor license fees and other losses in revenue. Nevertheless, considering the state as a whole, the rate may not exceed two-fifths of the rate last year except by special permission of the State Board of Tax Commissioners.

The preliminary compilations of the state board indicate an increase in the assessment of real estate and improvements from \$1,500,892,290 in 1918 to \$3,687,699,250 in 1919, or an increase of 145 per cent. Real estate and improvements, outside incorporated cities and towns increased from \$1,008,940,615 in 1918 to \$2,723,114,380 in 1919, or 130 per cent. At the same time real estate and improvements within incorporated cities and towns increased from \$491,951,675 in 1918 to \$1,454,584,870 in 1919, or 177 per cent. These preliminary figures show conclusively that there is a larger increase in the assessment of real estate and improvements within incorporated cities and towns than in the country. In the former, the increased assessment amounted to 177 per cent and in the latter, 130 per cent.

Assessments of real estate were made early in the present year. Since that date, there has been a tremendous increase in the values of all real estate and improvements. Both rural and city. It is probable that farm real estate has increased in value from \$25 to \$75 an acre since March 1. Similar increases have also been realized in the values of city real estate. Even though the state tax board has insisted upon the assessment of real estate and improvements at its full value, it is certain to go upon the tax duplicate considerably less than its value at the present time and especially when taxes on the 1919 assessment are collected.

The largest percentage increase in the valuation of property figures of the state board applies to property assessed by the State Board of Tax Commissioners directly. The state tax board assesses directly interurban lines, railroads, sleeping car lines, telephone and telegraph companies, banks and trust companies and public utilities. In this group, the assessment was increased from \$249,427,777 in 1918 to \$980,220,499 in 1919, or an increase of 192 per cent. The smallest increase in valuation is shown in the assessments of personal property. The assessment of personal property increased from \$655,056,594 in 1918 to \$1,606,685,792 in 1919, or 107 per cent.

The State Board of Tax Commissioners has already called attention to the fact that real estate and improvements which comprised 64.68 per cent of the total duplicate last year will comprise less than 60 per cent of the duplicate this year.

If the pending constitutional amendment carries and the General Assembly is permitted to classify property for taxation, a great volume of intangible property should be brought upon the duplicate and the

burden upon real estate and all other property materially reduced.

FIRE CHIEFS MEET TODAY

Northwestern Association Entertained at Decatur

Decatur, Ind., Sept. 25.—Better cooperation among fire chiefs for fighting and preventing fires and the exchange of ideas and suggestions were the aims of the Northwestern Indiana Fire Chiefs association which met here today.

Fifty-six chiefs representing fourteen counties were here and the local fireman exerted every effort to make the meeting a success. The state fire marshal was to make an address on "Fire Prevention and Inspection and Condemning Buildings," Chief Archie McCabe of Maconie, talked on the use of motor apparatus in modern fire fighting equipment.

Stop Itching Skin

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. A little Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

ONLY 6 ROOMS LEFT IN WESTMINSTER ABBEY

Famous Britishers Will Have to Hurry up and Die if They Want to be Buried There

TO BE CREMATED FIRST.

(By United Press.) London. (By Mail).—Famous Britishers will have to hurry up and die if they want to be buried in the national Valhalla, Westminster Abbey. There is absolutely only room for six more, and they will have to be cremated first, according to Rev. Canon R. H. Charles, who is in charge of abbey graves and interments.

The suggestion cabled from Australia, that the abbey should be the last resting place of a casket of bones, alleged to be those of England's patron saint, St. George of Cappadocia, which were excavated by Australian troops in Palestine, finds little favor with Canon Charles. "I don't care a tuppence about his bones," he declared emphatically. "Just now I am more concerned about the remains of England, if the labor troubles don't cease."

Anyway, there is only room for the remains of six more famous people in the abbey. I am trying to secure additional ground for inter-

ments; there are some old houses behind one of our Norman walls which will have to come down some day. I want the space reserved for the interment of the famous men. There are so many great men, nowadays, and there will be so many in the years to come that space for six seems inadequate. If we get this space we might have room for St. George."

Among the newer scientific toys is one, which transmits pictures electrically, using the same principles as are applied to telephotography.

More Than 75,000 Satisfied Users

DELCO-LIGHT was designed and built by men who were raised in farm homes—who experienced the discomforts and inconveniences of farm life—and who set out deliberately years ago to develop an electric plant that would provide city advantages for rural communities.

They were the same men whose engineering talent had made DELCO Starting, Lighting and Ignition Equipment for automobiles the standard of the world—

They knew electricity—and they knew the needs and limitations of farm life—

They knew that an electric plant to give service in a farm home must be simple, so that it would not get out of order and require complicated repairs—

It must be easily operated and require little attention—

It must be very economical in operation—

It must be built to stand hard usage and it must last indefinitely—

DELCO-LIGHT

A complete electric light and power plant for farms and country homes, self-cranking—air cooled—ball bearings—no belts—only one place to Oil—Thick Plates—Long Lived Battery—RUNS ON KEROSENE

SPAIN SEEKING CAUSE OF UNREST

Situation of Never Ending Series of Strikes and Riots Grow More Serious Weekly.

FEAR MONARCHY OVERTHROW.

German Money and High Cost of Living Blamed for Continuous Upheaval in Nation.

(By United Press.)

Madrid, (By Mail)—Spain, wrought up because of the never ending series of strikes, rebellions and riots, is seeking the cause of the unrest. Is it the effect of German inspired bolshevist propaganda, or is it the high cost of living? This is the question Spanish leaders are trying to answer. In the meantime the situation grows more serious weekly.

In Andalusia the wheat supply is being burned, in Murcia the fruit trees and vines are being destroyed, in Valencia the strikes are becoming more and more effective, in Catalonia assassinations are becoming more frequent.

The bourgeoisie, in self defense, having but little confidence in the state troops, is organizing its "Somaten", a national guard composed of bourgeoisie members. This organization in Barcelona alone has a membership strength of nearly 80,000.

Investigations carried on to date have brought out the fact that the usual cause cited as the reason for the outbreaks is the high cost of living. On the other hand, Spain is not at all suffering from such prices as prevail in the remainder of Europe. The costs have increased from 25 to 50 percent as compared to 300 percent in France. However, in most cases throughout Spain wages have gone up quite as much as food prices.

In view of this rather limited increase in living expenses the accusation that German money is behind the various disturbances seems to be fully justified.

Germany's program throughout Europe at this moment is to stir up trouble and dissatisfaction. Order within Germany, disorder in all other countries is Berlin's desire. Apparently Spain has proved to be more receptive to the trouble-making spirit, for in no other nation, not even those most severely torn by war, have the anarchists and syndicalists made such astounding headway.

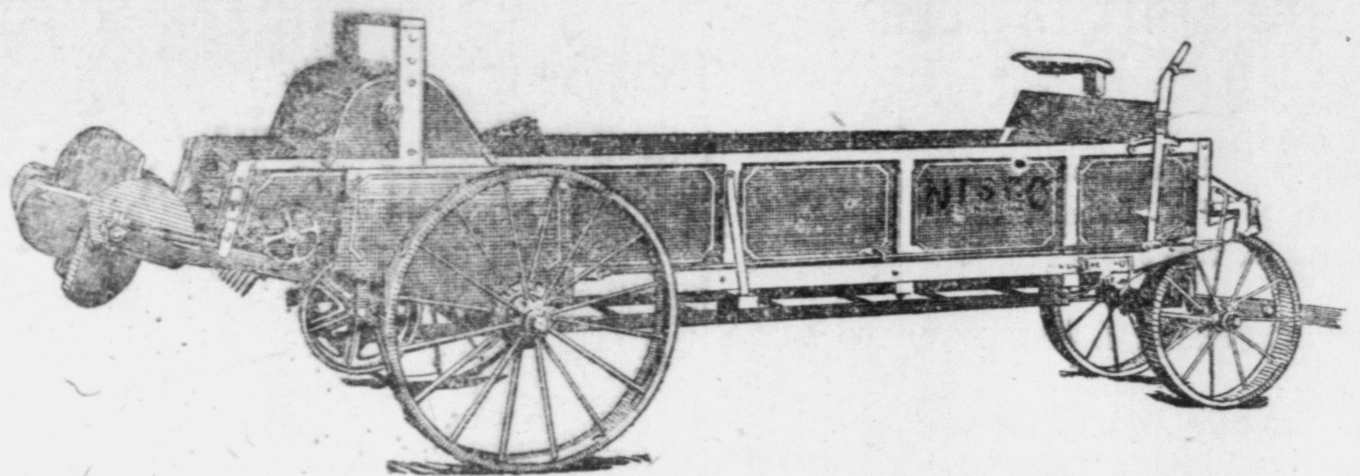

Spain will suffer, and suffer severely if the present unrest is allowed to continue and grow. The overthrow of the monarchy, which is the avowed aim of the more radical rebels, would leave the country a prey to conditions fully as terrible as those which have torn Russia. There are now no statesmen in sight who could replace the king. The establishment of a moderate republic is impossible at this moment. It must be either a complete re-establishment of the authority of the soviet republic so earnestly sought by the rioters.

Under ordinary circumstances Spain should now be the most prosperous of countries. She successfully avoided the war, she has kept her young men safe from cannon-fire, she was, in short, enriched by the war when her neighbors were almost impoverished. What in Spain is regarded as a high living cost seems ridiculously cheap to the people of France, England and Italy.

The Madrid Correspondent of the Petit Parisien in a message to his paper, gives the following explanation for the troubles:

"It is Germany that has brought this trouble to Spain. Seizing the opportunity to exploit the rivalry of the political factions, Germany has succeeded in poisoning the public mind. Immense sums of money have been subsidized, and no possible means of causing unrest have been overlooked.

"The campaign of four years of propaganda is bearing fruit. At Madrid the German ambassador, Prince von Ratibor turned his embassy into a spy headquarters. This prince, who was nothing more than a spy, was surrounded by spies from the time of von Stohrer to Grimm and including von Kalle. This band worked in-

Nisco Spreaders

Now that the season for preparation for another crop has come, many are thinking of buying a Spreader. This Nisco is the one best on the market. I know of no one who has one of them who would not tell you that he had in it just what he had been wanting—a spreader that did the work just as he wanted it done. Just yesterday I had word from the factory saying that in the last two months they had sent out six trains—totalling 157 cars, loaded with 2,432 spreaders. This will give you some idea of how popular they are. These shipments went into Indiana, Michigan, Illinois, Minnesota, Wisconsin and Nebraska.

We have them out here with the following formers:

cessantly against Spain. It was this group which was behind the attempted assassination of Count Romanones.

"This work has ceased with the end of the war. On the contrary it is just now becoming more effective than ever before.

"Had Spain been able to resist the constant and clever secret work against her, she would have had to be more than a nation of mortals, she would have had to be a nation entirely removed from this globe. But Spain wasn't so distant. She was merely a country of mortal beings, and hence succumbed to the poisonous injections.

"Her case is not yet hopeless. But the situation is nevertheless serious. It is essential that once for all Spain deliver herself from the machinations of Berlin. She must regain her full liberty. Then, and then only, can she return to the work of normal times. Then only can her ministers perform their work and maintain their offices instead of finding themselves suddenly deposed by some mysterious magician."

WORK IN E. A. DEGREE

Phoenix Lodge, No. 62, F. & A. Masons, will have work in the E. A. degree Friday evening at 7:30 o'clock. A large attendance is desired.

Fifty base hospital units organized by the Red Cross before the United States entered the war and turned over to the Army during hostilities are back from the field and will be reorganized and held ready for any call, civil or military.

"Gets-It" Peels Off Corns Painlessly

Off They Come Like Banana Skin. 2 or 3 Drops, That's All.

There's a murderous, painful way to get rid of corns, and then there is the peaceful, glorious "peel-it-off" "Gets-It" way. After you have tried "Gets-It" you will say "never

Cut it? Quit it! "Gets-It" Peels it! again! to all other methods. This is because "Gets-It" is the only corn-remover on earth that makes corns peel off just like a banana skin. Two or three drops will do the work, without fussing or trouble. You apply it in 2 or 3 seconds. It dries immediately. "Gets-It" does the rest, without bandages, plasters, blood-bringing knives or razors. Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use "Gets-It". It never fails. "Gets-It" the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill.

Sold in Rushville and recommended as the world's best corn remedy by F. B. Johnson & Co. and Hargrove & Mullin.

HEARS CASE AGAINST THE STATE TAX LAW

Injunction Suit Filed in Newcastle Will Test Validity of New State Statute

LIBERTY BONDS WERE TAXED

New Castle, Ind., Sept. 25—Judge Fred C. Gause, of the circuit court, was to hold a preliminary hearing today in a suit to test the validity of the new state tax law. It was an injunction suit filed on September 1 by the Hoosier Manufacturing company seeking to enjoin the county auditor from placing the assessments as made by the state tax board on the duplicate. The

suit contests the right of the state tax commissioners to assess Liberty bonds and other United States government securities. The sum of \$450,000 for the Hoosier factory is involved.

The complaint of the Hoosier company alleges that \$100,000 in United States certificates of indebtedness and \$20,000 in Liberty bonds were assessed by the board and also that \$47,000 worth of property held by the company outside the state was listed for taxation.

Valuations of Hoosier were raised by the tax board from \$775,000 to \$1,225,000. The Pan-American Bridge company filed a similar suit, but it has been dismissed.

The northern hemisphere has more than 200 public astronomical observatories, to less than twenty in the southern.

EMIGRANTS TO GO BACK TO EUROPE

Hitherto There Has Always Been a High Flow of Foreigners From European Lands

SEVERAL REASONS ARE GIVEN

General Tie-up in Trans-Atlantic Traffic During Five Years of War is One of Causes

New York, Sept. 25—A stream of emigrants from America that will number hundreds of thousands will flow back to European countries as soon as transportation facilities will permit, according to consular officials in New York, who report that their offices are swamped with applicants for passage back to the old countries.

Authorities familiar with the situation predict important effects from the wave of emigration, which reverses the usual trend of traffic. Hitherto, there has always been a huge flow of immigrants from the European lands to America.

Several reasons are suggested as responsible for the turning of the emigration tide between Europe and America. Jointly they are considered sufficient to cause a wave of immigration to Europe.

The general tie-up in trans-Atlantic traffic during the five years of war is one of the causes for the concentrated desire of Europeans to return home now, think authorities. Many men who came here to work have not been able to visit their families during the war.

Applications filed with consulates show that the majority of these emigrants do not intend to return to America with their families, but feel that they will have better opportunities in the old countries. High wages during the war, and especially during America's participation in it, have enabled most of the foreigners to return home with savings sufficient to make them quite independent on the old scale of living.

It is predicted, however, that few of them realize the cost of living in Europe, where, since the war, has risen more than in America, and that these returning "capitalists" will be disappointed. This will be especially true of Italy, it is believed, where it has long been the custom to go to America a few years and return a well-to-do citizen.

The greatest permanent rush of peoples will be to the small nations freed from yokes of Austria and Germany by the Allied victory, it is thought, judging from indications at consulates of Poland, Czechoslovakia, Serbia, and Rumania. There is also a strong movement under way toward countries formerly under the Russian Czar's rule, especially Finland and Lithuania. According to emissaries of the Russian Soviet government in New York, more than half a million Russians throughout the country want to return to Russia.

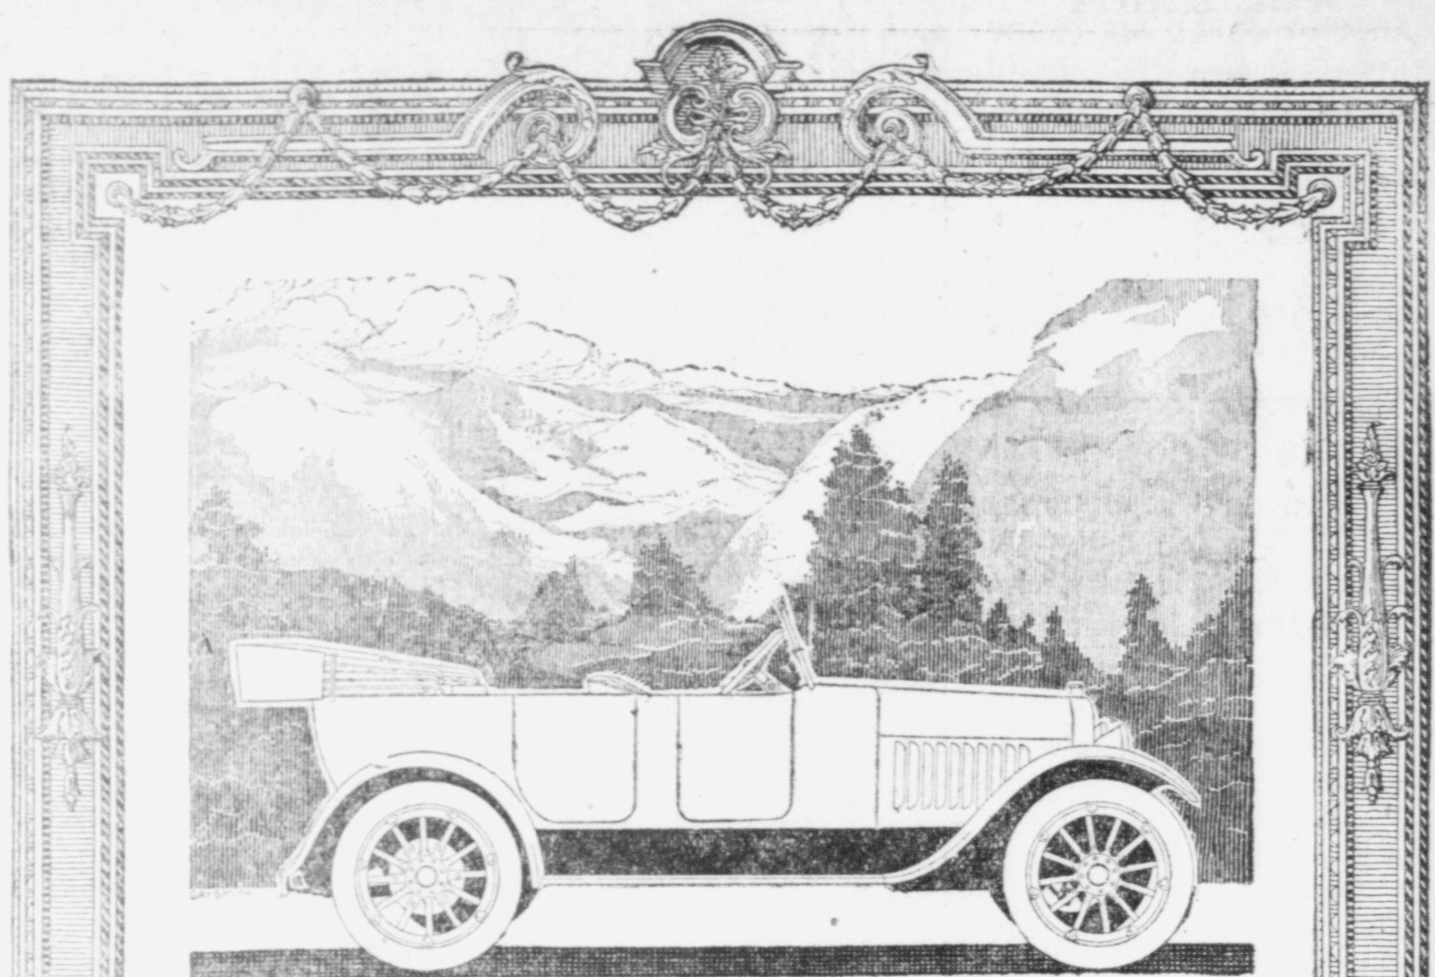

It is impossible to estimate the strength of the movement to Germany and Austria, there being no consular representatives of these countries in America.

Economists see in the emigration movement serious problems for America, which may lose almost a million workmen in the course of two or three years. It is said this will cause a scarcity of the so-called cheap labor for unskilled work, and keep wages high.

At the same time Europe will gradually get more labor, which will tend to reduce wages on that continent, and probably reduce prices, though the emigrants will be scattered through such a large population that they will not affect European countries as much as their absence will be felt in the United States.

Sociologists see in the movement a purifying of the American nationality, which has been strengthened and welded together by the war. Removal of that part of the population which has no desire of being assimilated would be a good thing, they think, in spite of the shortage of labor it might create.

W. E. Horton & Son Chester White hog sale Tuesday Sept. 30th on farm. See descriptive ad in Friday's issue. 16316

A Hot Spot Chalmers Costs \$1685 f. o. b. Detroit

THAT is the price of the five-passenger model.

We have said so little for a long time about price, and so many wealthy men have bought Hot Spot Chalmers that the public has begun to feel that the price is higher than the sum really asked.

It's true it's a quality car, quality all the way through; it looks well when purchased—and four years after—and it often runs 10,000 miles without a penny's outlay.

And it has in Hot Spot and Ram's-horn two devices that lift it entirely out of its price field and make it one of the few

great cars of the world today.

It is one of the largest selling six-cylinder cars, it holds the world's 24 hour record, and it has multiplied its friends in all the great centers.

Yet it is not merely a "boulevard car," although it is well dressed; and it is not a "one year car," as it runs even better the second and third year than the first.

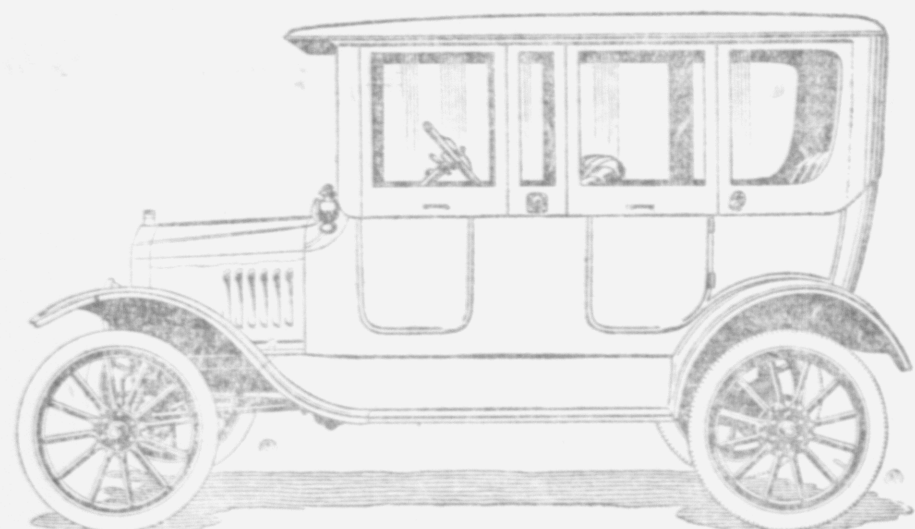

The great advance of Chalmers is due to Hot Spot and Ram's-horn.

If you've been driving a \$5000 car come in and take one ride.

You'll forget your evening engagement.

Detroit Weatherproof All Season Tops

It's an attachable top rather than a detachable top. We say this because it is so easy to put on. You are protected from the cold winter weather or in summer it can be all opened in a very few minutes to permit the freest vision and ventilation. It has flexible sliding doors that can be opened any desired height. It is simple in construction, no rattling and exceedingly well finished inside and out.

LOWEST PRICED. SATISFACTORY TOP ON THE MARKET.

DAIRY SHOW NEXT MONTH

Invitations Accepted by 20 Countries for Chicago Event.

Chicago, Sept. 25—The national Dairy Show, which is to be held in Chicago from October 6 to 12 this year, will bring together people from the four quarters of the globe. The state department at Washington formally invited all the governments of the world to participate in the show and get a post-war message on dairying that Uncle Sam will deliver at that time. Acceptances have been received from twenty or more governments, all of whom will have official representatives at the show. Delegations are also coming from Saskatchewan province in Canada, from Louisiana, Washington, Oregon, California, Atlantic seaboard states and from other parts of the United States and Canada.

In the interior of China, natives hatch both hen and ducks' eggs by burying them in lukewarm rice, which they reheat daily.

She Wants to Help Others

Mrs. A. G. Wells, R. F. D. Rocky Mount, N. C. writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefits I have derived from their use. Please publish this statement as I want the people everywhere to know of them." Lame back, sore muscles, puffiness under eyes, and an "always tired" feeling are indications that kidneys and bladder are not working properly. Foley Kidney Pills strengthen weak, disordered kidneys and bladder. F. B. JOHNSON Adv.

Public Sale of Durocs

We, the undersigned, will offer at public sale on Ora Lower's farm, 6 miles west of Rushville, 3 1/2 miles southeast of Arlington, and 3 1/2 miles northeast of Homer, on what is known as the Squire Dearing farm,

MONDAY, OCTOBER 6, 1919.

BEGINNING AT 12:00 O'CLOCK
SALE TO BE HELD UNDER TENT

58 Head of Hogs 58

Consisting of 7 Spring Boars, 45 Spring Gilts, 6 Yearling Sows, with litters. These sows have 44 pigs by side, real prospects for good brood sows. The above named hogs are all pure bred Durocs, the kind you will be looking for, for breeding purposes. All hogs are vaccinated with double treatment. In addition to this sale will be

3 Head of Horses 3

1 brown mare, 10 years old, weighs 1350 pounds, a No. 1 work mare. 1 black mare 7 years old, weight 1350 pounds, as good a one as you will find. 1 brown smooth mouth mare, lady broke.

IMPLEMENTS—1 wagon, Studebaker, been used a very short time, good as new, 1 flat bed and hay ladder combined, 1 set of hand-made harness, hip breeching, brass mounted, all good as new, been used very little; 1 set of breeching harness, brass mounted, and are good ones, same as new; 1 double shovel plow, one 35 gallon steel drum; 1 good enclosed buggy.

TERMS—made known on day of sale. Come early and stay late, bring the whole family — you're welcome.

Lunch served by the ladies of the Christian Church of Homer

ORA T. LOWER. REX KEMPLE.

AROUND WORLD AIR DERBY

New York, Sept. 25.—Plans for an international air derby around the world were announced to the Aero Club of America today. Prizes will amount to \$1,000,000, it was estimated. The date of the start cannot be announced until the routes and landing places are decided on.

Powerful Pile
Remedy Discovered

Has Never Failed to End Most Obstinate Case of Piles in a Few Days.

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT! What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.—Adv.

DAME FORTUNE IS
STRONG FOR EDDIE

Athletic Star Will Have Played in Six Out of Fifteen Post Season Battles

BARRY ALSO HOLDS RECORD.

In Addition Collins Has Received Five Large Slices of World's Series Coin.

Eddie Collins, star second sacker of the White Sox, is sure in strong with old Dame Fortune. While some of the premier ball players of the majors, including Nap Lajoie, have gone through a career without a single look in at world's series honors, the former Athletic star will have played in six out of the fifteen post-season battle when the curtain falls on this year's classic.

He and his old team mate, Jack Barry, hold the record as the most "world's series" players of the game. Barry has been a member of six winners, but he played in only five series, a broken arm in 1916 having kept him from active work in the series.

In addition to the honor of having played in the most world's championship games, Collins had profited immensely by the smile of the little god Luck, which has given him five large slices of the world's series coin and one small hunk. By another piece of luck he did not take part in the series when "slim years" prevailed. It is estimated that the extra money which came to him from this source runs around \$17,000.

His first divvy of the extra coin came with the Athletics when they won the world's championship in 1910. He was with them when they repeated in 1911 and in 1913, when the Braves made the Athletics take the small cut of the pie in 1914 he had another piece. Then he was traded to the White Sox and cut in again on the coin in 1917 and this year he repeats for even a larger share which seems probable with the increase of the series to nine games.

ONLY THE PRESIDENTS

Gerry Herrmann

Chairman of the national commission for sixteen years and president of the Cincinnati Reds for an equal period, August Herrmann is one of the best known men in baseball.

And he is one of the most pleased men in the game this year since his team won its first pennant under his regime. Herrmann became prominent in the National League on August 9, 1902, when he became part owner of the Reds along with George B. Cox, now dead and Max Flieschman. They bought the club from John T. Brush for \$150,000. When the club was reorganized, Herrmann became president and he never relinquished the position.

Early in his career, Herrmann was a printer. He then got into politics with the late boss, George B. Cox, became associated in some big business interests with him and finally branched out as a baseball magazine.

Charlie Comiskey

No more picturesque figure is prominent in baseball to-day than Charles Comiskey, the "Old Roman" president of the pennant winning White Sox.

He has been in baseball's spotlight for twenty-seven years as manager, owner and an authority on the national game. He is the big boss now of a team that has never lost a world's series decision. Twice the White Sox have landed a pennant and as many times they have nosed out the National League entry in the big classic.

Comiskey first became prominent as manager of the Cincinnati Reds in 1892, 1893 and 1894. He was not a howling success in that capacity, the team finishing fifth, sixth, and tenth respectively under his guidance. His big step came in 1900 during the fight between the National and American League. He was one of the principal factors. He helped organize the western wing of the league and later acted on the

committee which met and declared a truce with the older league. When the league got under way in 1901 he became president of the Chicago club and has held that position ever since. He had the honor of heading the first American League pennant winner.

CITY WELCOMES MAN HOME

Former LaPorte Man, Now London Writer, is in Indiana

LaPorte, Ind., Sept. 25.—Frederic W. Wile, correspondent of a London newspaper who is in this vicinity on a leave of absence, will be officially welcomed back to his home town here tonight.

Two hundred LaPorte citizens will give a banquet in Wile's honor.

Wile was in Berlin when Germany declared war but for the intercession of Ambassador Gerard he would have been arrested and confined in a German prison.

Cut This Out—It is Worth Money

DON'T MISS THIS. Cut out this slip, enclose with 5 cents and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache, and sluggish bowels. COVENANT DOES NOT
SATISFY JAP LABOR

Suzuki Declares too Little Attention Was Paid to Problem of Racial Equality.

DELEGATES ARE INCOMPETENT

(By United Press.)

Yokohama, Japan, Aug. 1 (By Mail.)—Japanese labor is not satisfied with the League of Nations covenant if Bunji Suzuki, the Gompers of Japan, speaks for the laboring class.

Referring to the covenant, Suzuki declared that "we can hardly agree with some of the conditions, for instance, the fact that there is no reliable assurance whereby war is made impossible".

"Too little attention was paid to the problem of racial equality, he said, and immigration of laborers was treated only superficially, "and remains unsolved, causing irritation".

"The form of the League of Nations is fixed", he said, "but the spirit of such a league is yet to be born."

Suzuki, who arrived here from America, said Samuel Gompers told him he expected to visit Japan about next April.

Minister Ohiai and others who represented Japan at the International labor congress were "utterly incompetent" and "exposed their utter unpreparedness" according to Suzuki. They showed the world a lack of initiative among Japanese labor delegates, he said.

Within five days after starting a lime pulverizer in one community in Jennings county, B. L. Smith had received orders for 3,000 tons of ground limestone for distribution in the immediate neighborhood. Many demonstrations in the county have convinced the farmers of the value of limestone.

TAKE

PEPSINCO

the best remedy for indigestion that ever came out of a drug store.

You know that pepsin is good for indigestion but pepsin could never do what PEPSINCO will. We have dealt in medicines long enough to know the various uses and value. We unhesitatingly say that PEPSINCO is the best remedy for indigestion, gas, flatulency, food distress, sour stomach and pains under the ribs, that ever came out of a drug store. Sufferers of indigestion and dyspepsia will do well to take PEPSINCO.

Ask your druggist—he sells and recommends Pepsinco.

COLUMBIA UNIVERSITY FOOTBALL STRONG

Has Eight Games on Fall Schedule and Prospects are Good for a Clean Sweep

MANY MEN BACK FROM ARMY.

New York, Sept. 25.—Columbia's football candidates were called to report to-day by Coach Fred Dawson.

Even better results are expected for the coming season than last year, when the eleven, crippled by losses of regulars to the army, went through the season with a lone defeat and that to the unbeaten Syracuse team.

Houlahan, Sanapary and Shaw, last year's back field, are expected to return to the university as well as the following linemen, Eccles and Scott, of last year's freshman team. Robinson, Modarelli, Kieninger, Grace, Parks, and Tower. Joe Brown, center and Jack Kennedy, of the 1916 team, will probably be out of the service in time to train with the squad. The loss of Robb, last year's captain, and Halfback Collins by graduation will be felt keenly.

All of the eight games on the following schedule will be played on South field here: Oct. 11, Vermont; Oct. 18, Williams; Oct. 25, Amherst; Nov. 15, Wesleyan; Nov. 22, New York university and Nov. 27, Brown.

Public Sale Dates

If you contemplate holding a sale I will appreciate your date as soon as possible as you will note by this ad that I am constantly giving your sale that same broad advertising that I have always given in the past.

SCHOOL TEACHER GOES BEFORE PARDON BOARD

Katherine Brooks Appears Before State Body Asking Clemency for Mrs. Rae Krauss

WAS SENTENCED FOR MURDER.

Indianapolis, Ind., Sept. 25.—Miss Katherine Brooks, a Chicago school teacher, was to appear before the state board of pardons today in an effort, to free Mrs. Rae Krauss, now serving a life sentence in the women's prison for the murder of her step-daughter, Crystal Krauss at Hartford City in 1914.

The Krauss case has been before the board at many sessions, but that body has always turned down petitions of clemency. Miss Brooks has said that the majority of the club women of Indiana are interested in freeing Mrs. Krauss.

Early in July, Margaret M. Keely, secretary of the Woman's Prison, sent the pardon board a copy of a new confession made by Mrs. Krauss in which she repudiated a confession made in 1910 incriminating her husband, Will Krauss. The new confession said that she alone is responsible for the crime and was made of Mrs. Krauss' recent religious "experience".

Simple Home Remedy

Advised For Rose And Hay Fever

Anyone Can Make a Pint For Trifling Sum and Used In Time May Prevent Annual Attack

"No matter how severe your yearly attack be, No matter how distressing or humiliating—Its intensity can be reduced to a harmless, mildness," says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Pour one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in one ounce vials is dispensed by all the better pharmacies.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

SUPPLY PREACHER COMING

The Rev. H. J. Manley of Lane Seminary, Cincinnati, will preach at the First Presbyterian church next Sunday morning and evening at the usual hours. He comes as a supply only and is not a candidate for the pulpit.

INTERCLASS GAMES PLAYED

High School Coach Hopes to Pick Basketball Material This Way

Interclass basketball games are being played every evening after school in the Graham Annex gymnasium, and in this way the manager of the varsity can pick the members for the team which will represent the high school in games this winter. A schedule is about completed and will be announced in a few days. In last night's games, the Seniors defeated the Sophomores by the score of 16 to 13 and the Juniors beat the Freshmen by the score of 16 to 7. The prospects this year are for a good team, and the regular team will be picked in a few days from members of the different class teams.

"OUCH! THAT OLD RHEUMATISM!"

Just get out that bottle of Sloan's Liniment and "knock it galley-west"

WEREN'T prepared for that quick switch in temperature, were you? Left you stiff, sore, full of rheumatic twinges? You should have had a bottle of Sloan's Liniment handy—that would have soon eased up the muscles, quieted the jumpy, painful, affected part—penetrated without rubbing, bringing gratifying relief.

Helpful in all attacks of lumbago, sciatica, external soreness, stiffness, strains, aches, sprains. Get a bottle at your druggist—35c., 70c., \$1.40.

DID YOU EVER SEE ASBESTOS SWEAT?

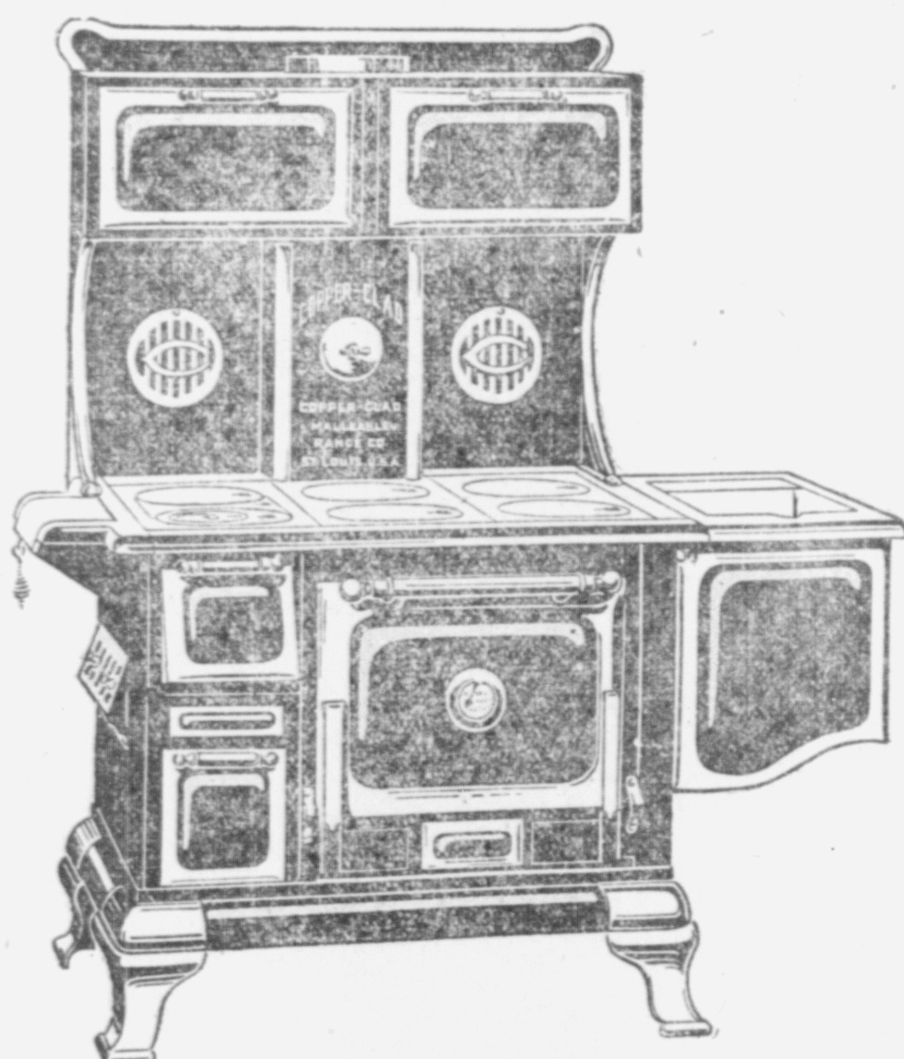

Is There a Doubt in Your Mind?

WET WITH SWEAT

Every time a fire is built in a range the body gets wet with sweat. Sweat Rusts.

Come then and see for yourself. See the Sweat roll up in beads on the iron body. See the Sweat that causes Sweat-Rust, a disease that eats up and rusts out range bodies from the inside. Then, see how good, old, everlasting copper is placed between the asbestos and range body. See the domes on the sheet of copper. See the air spaces formed by the domes. See the thermos bottle principle actually applied to ranges.

A WEEK OF DAILY DEMONSTRATION BEGINNING SEPT. 29

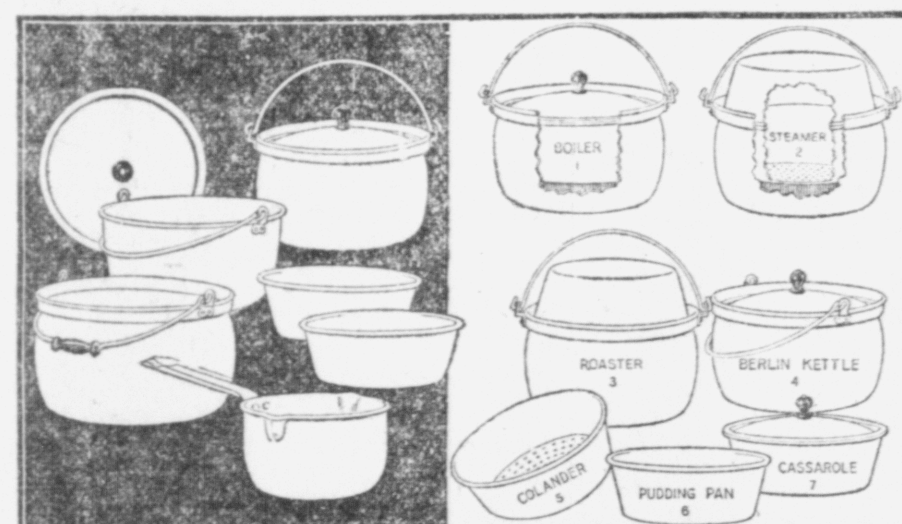

The Copper-Clad Range is as Plain as an Automobile Body

The first automobiles made were fussy, full of ornaments, hinges, catches and latches, but the men who cleaned the automobiles kicked on these things that made so much work and trouble. Then the hinges and latches and catches were put on the inside of the body, clear out of sight—clear out of the way. If men cleaned ranges, the frills and ornaments and fuss and feathers all over the average range would have disappeared 40 years ago.

Clean, smooth, plain, elegant, lined with copper to prevent Sweat-Rust—with four walls and an air space to confine the heat like a thermos bottle—the Copper-Clad is King of the range world. No range compares in any way at any point.

Copper-Clad Means
Pure Sheet Copper is placed between the sweaty asbestos and the range body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

THIS Set of Elegant Aluminum Ware FREE

"Free" means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the Crank is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible cooker takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

Free to every Copper-Clad buyer during this sale. Come—See the Asbestos Sweat.

HOT ALFALFA BISCUITS

Alfalfa Biscuits baked in a Copper-Clad oven is about the Goodest Biscuits you ever tasted. Come and taste—stay and eat. Alfalfa Biscuits with butter and hot drip coffee will be served every day. COME—bring your friends and make yourself at home.

For One Week Beginning Sept. 29th.

TWELVE PAGES TODAY

OUTBREAKS TODAY IN 2 STEEL TOWNS

One Striker Killed and One Badly Beaten in Gun Fight With State Police at Farrell, Pa.

WERE SHOOTING STEEL PLANT
Shots Fired at Employees of Clairton Mill Carrying Wages—Picket Lines Are Appearing

(By United Press.)
Farrell, Pa., Sept. 25.—One striker was killed and one badly beaten in a gun fight with state police here today. The police raided a house from which it was declared men were snipping the steel plant.

Pittsburg, Pa., Sept. 25.—A score of shots were fired today at three employees of the Clairton Steel plant and a policeman enroute to the mill. The men were carrying \$200,000 in wages to be paid the workers. No one was injured.

Begin Limited Operations
Chicago, Ill., Sept. 25.—Steel mills began to combat the strike in the Chicago districts today. The Gary plant at Gary, Ind., began limited operations, using workers who have been stringing back in the last few days. Steel company officials at Indiana Harbor and East Chicago said men were appealing for more police protection so that they might return to their jobs. Transportation promised to bring problem today with trainmen reported restive at handling supplies of steel men remaining at work and the seamen grumbling over handling ore for the companies.

Somber Marks of Struggle
Pittsburg, Pa., Sept. 25.—The somber marks of a protracted industrial struggle were settling upon the Monongahela valley today.

As far as permitted by rigid police regulations, picket lines are beginning to appear about the big steel mills.

From inside of the plants came heavy pounding, rattling and the noise of workers, while outside great numbers of men move through the streets obviously idle.

Mounted state police in their gray uniforms rode through the streets. Armed deputies stood on guard outside the plants. Everyone kept moving. From the plants came word that men are returning to work in constantly increasing numbers. The

BILL OF LADING FOR FOOD ORDER ARRIVES

Part of Amount Purchased at Rushville Postoffice Has Been Shipped by Freight

PROBABLY FIRST DAY'S ORDER

Postmaster G. P. Hunt has received from the government the bill of lading for part of the surplus food ordered through the local postoffice, and its arrival is expected now almost any time. The bill of lading stated that only part of it was coming through, probably the first day's orders, and shipment has been made by freight from Chicago.

Upon its arrival here, the postoffice force will sort it out, and have it distributed according to the manner in which the orders were received by the postoffice here. Where case lots were ordered they will be delivered at once, but where less than case lots were ordered, some little time will be required in opening the boxes, and counting out the number of cans or packages ordered by the purchaser.

HIGH S.A. OFFICERS COMING

Brig. Simonson and Capt. Hopkins to Arrive Tuesday Night

Brigadier L. M. Simonson of Indianapolis, divisional officer, and Staff Captain Hopkins, province young peoples secretary, of Detroit will conduct a special Salvation Army meeting here next Tuesday night. Capt. Hopkins is said to be a great public speaker has been engaged in Salvation Army work in various countries. He was the officer in charge of the New York training college which Capt. and Mrs. J. A. Tench of this city attended. An open-air meeting will be held at seven o'clock and an indoor meeting at the church at eight.

GOVERNMENT AGENTS ARE WATCHING STRIKE

William J. Flynn and Assistants are Keeping in Close Touch With the Situation

REPORTS OF I. W. W. AGITATION

(By United Press.)
Washington, Sept. 25.—William J. Flynn, chief of the secret service bureau of the department of justice, today was in Pittsburgh investigating the steel strike.

Through Flynn and a group of secret service agents scattered through the strike districts of western New York, Pennsylvania, West Virginia and Ohio, Attorney General Palmer is studying the strike and is keeping in touch with the entire situation, it was made known here today.

Palmer and all government officials since the strike began have been flooded with reports that I. W. W. leaders and other radical organizations and agitators are coming to Pittsburgh in the hope of taking advantage of the strike to stir up rioting.

TAYLOR APPEALS TO CIRCUIT COURT

Is Fined \$25 and Costs and Sentenced to 60 Days at Penal Farm By Special Judge

TWO MORE CHARGES REMAIN

Chase Taylor, who was arraigned yesterday afternoon at four o'clock in police court, after having had his trial put off on several occasions, entered a plea of not guilty, but the evidence given caused Special Judge T. M. Green, to impose a fine of \$25 and a sentence of 60 days at the penal farm. The case was appealed to the circuit court.

The case yesterday was the assault and battery charge, and two witnesses testified for the state, they being the policemen, Newhouse and Lemmon, upon whom the alleged assault was committed. Several other witnesses were called, but were not needed. Two other charges in police court remain to be tried against Taylor, as the result of the affair of August 31, when he caused the police trouble with his automobile. An effort today was being made to get him out of jail on bond.

SOLDIER IS UNDER ARREST

Brownstown, Ind., Sept. 25.—A soldier from Ft. Benjamin Harrison was arrested here late Wednesday afternoon, after he is said to have tried to dispose of a government car first for \$50 and then for \$35. He is said to have been under the influence of an intoxicant when he reached here and he was arrested while asleep along the road.

CLASS FREIGHT BY TRACTION REDUCED

Decrease on Rate For Household Goods is Voluntary, According to I. & C. Officials.

HAUL LITTLE OF THIS CLASS

Local Line Does all of Freight Business it Can Handle—Effect Motor Trucks Not Felt.

The ruling of the state public service commission requiring traction lines of Indiana to cease charging higher class freight rates between different points in the state, than are charged by the steam lines, which was made this week, was at the request of the traction lines, whose representatives, at a meeting in northern Indiana last week, decided to make the voluntary decrease, according to officials of the Indianapolis & Cincinnati Traction company.

Recently the interurban lines were authorized by the commission to charge slightly higher rates for household goods, because it was felt by the traction companies that they could not handle this class of freight, due to their limited facilities, and they preferred that it be shipped over the railroads. Why they decided to return to the old rate is not explained.

The I. & C. hauls very little of this class of freight, except in small lots. Very seldom are household goods in carload lots accepted, because this traction line or very few in the state, for that matter is not equipped to do that kind of business. The I. & C. is now doing practically all the freight business it can with its present facilities.

The motor truck, which is being used extensively in hauling freight, has not made any inroads on the I. & C. business, officials state, such as it has in other parts of Indiana. There are a few truck lines running in opposition to the I. & C., but most of their business, it is stated, consists of hauling milk, during good weather. When the rainy season comes on and the roads get bad, farmers who depends on trucks to haul their milk, pile them up for the traction line and it is almost overwhelmed.

The traction lines have always had a complaint against the motor trucks because they have the privilege of tearing up the country roads, which all taxpayers maintain, for the nominal sum which they pay for a license, whereas the traction lines have to keep up theirs on roadbeds in addition to paying their share of the taxes to build and keep up the highways.

Says Objectors to Treaty Are Those Who Favored Germany

President Wilson Declares Hyphens And Knives Are Being Stuck Into Document, in Rousing Speech at Denver Today.

NOT QUESTION OF AMENDMENT

(By United Press.)
Auditorium, Denver, Colo., Sept. 25.—"Hyphens and knives are being stuck into this document," President Wilson charged today in a speech demanding acceptance of the peace treaty. He stated with emphasis that the accusations and objections to the treaty came from those that favored Germany in the war.

A demonstration continuing three minutes broke out when Wilson stated that he believed he had the support of the people of the United States. Shouts of "You bet, Woodrow" and "We're with you, old boy" filled the air.

CRIMINAL CASE TRIED IN COURT

Arie Colestock Testifies He and Sanford Heaton Had Trouble Over Harnessing Horse

APPEAL FROM SQUIRE'S COURT

Case Expected to go to Jury About Five O'clock Today—Other Cases Disposed Of

In circuit court today, the case of the state against Sanford Heaton was being tried, and it was almost certain that the trial would be finished late today. Most of the morning was taken up in getting a jury to hear the case. Many selected had heard of the case before, as it attracted a big crowd at the time it was tried in Squire Steel's court.

Judge Sparks this morning heard Mrs. Letha Buckner in her appeal for her funds, pending the trial of the divorce suit which was recently filed by Samuel Buckner. The matter was taken under advisement by Judge Sparks.

After the jury was obtained this morning, the state finished before noon with Arie Colestock, prosecuting witness, on the stand, and this afternoon the defense took the stand and introduced several witnesses.

On May 29, it is alleged that Heaton assaulted Arie Colestock, who was employed by him on his farm. The trouble came up over the harnessing of a work horse. Heaton who is an aged man, used foul language and had a bad temper, according to the prosecuting witness this morning. He attacked him, and threatened to do him harm, it was also brought out in the testimony this morning.

In July, the case was tried before Squire Steel, and the jury found for the state, imposing a fine on Heaton. He soon afterward took an appeal to the circuit court.

Yesterday afternoon, Judge Sparks heard the evidence in the case of the S. F. Bowser Company of Ft. Wayne against Mrs. Florence Duke, administratrix of the estate of Walter Duke, on an account of \$59.50. After hearing the evidence the judge decided in favor of the plaintiff, awarding them the sum demanded, the costs being paid by Mrs. Duke.

The case of R. W. Brown and N. W. Brown against George H. Sweet, as administrator of the estate of Dickson Sweet, on a note for \$310.36 was dismissed yesterday in court, by an agreement reached between the parties.

The case being tried today was expected to be submitted to the jury between four and five o'clock.

GAS IRON LEFT ATTACHED

Bad Fire Narrowly Averted at John Nipp's Home Today

The chemical truck from the fire station answered a call this afternoon shortly after one o'clock to investigate the cause of smoke coming from the house of John Nipp, 1009 North Main street, where it was stated that nobody was home. A gas iron had been left on the ironing board, and had burnt a hole through it, and when the firemen arrived, was gaining headway in the room, eating a hole in a rug. A serious fire would have resulted, had it not been detected in time. The loss is estimated at \$25.

BIDS ON EQUIPMENT BE RECEIVED TONIGHT

City Council Meets Tonight to Get Estimates on Cost of Light Plant Improvement

TO CONSIDER USED MACHINERY

Tonight is the time set by the council for receiving bids for the machinery which is to be installed in the water and light plant. Many bidders are expected here, as the machinery will amount to about \$21,000, and the council will consider second hand equipment, as well as new.

The machinery which is needed is to be used to generate more electric current, and will relieve the strain on the present system. The plans are to enlarge the voltage so as to have double current. The purchase of additional machinery means the enlarging of the present building.

The committee, which was appointed recently to investigate the building plans, will probably report at this meeting, or the next regular council meeting.

CORTEUR MAY BE SENT TO HIS HOME COUNTY

County Officials Believe Marion Should Stand Expense of a Sanity Inquest

HIS BROTHER IS NOTIFIED

Martin Corteur, the man who terrified people and threatened to do harm in the vicinity of Mauzy, Tuesday afternoon, was still in jail here today. He was supposed to be demented, and it was thought that a sanity inquest would be held, but officials seem to think that he should be sent to his home county, as he is a resident of Indianapolis, and not a Rush county citizen, and that they should bear the expense.

Sheriff Jones stated today that he had notified Joe Corteur, a brother of the man held in jail, who lives in Scottsburg, and that they would await his arrival before taking any procedure. In all probability Corteur will be turned over to the Marion county sheriff.

TO RESTORE RATE CONTROL

Washington, Sept. 25.—Without a record vote the house passed and sent to conference a bill granting authority to the interstate commerce commission to regulate rates with the same power it exercised prior to government control.

COONTZ GOES TO HIGH RANK

Washington, Sept. 25.—Secretary Daniels has announced the appointment of Rear Admiral Robert E. Coontz, to be chief of naval operations, the highest office in the navy. Rear Admiral Coontz, who will succeed Admiral William S. Benson on the latter's retirement tomorrow, now is in command of a dreadnaught division of the Pacific fleet.

LABOR OPPRESSION THE ROTTEN APPLE

John Fitzpatrick, Union Chairman, Says Steel Industry Will Contaminate Labor Situation

BEFORE SENATE COMMITTEE

Declares More Than Promise of Conference Will be Necessary to Get Strikers Back

(By United Press.)
Washington, Sept. 25.—The steel industry's "open oppression of steel is the rotten apple of the industrial situation," John Fitzpatrick, chairman of the strikers committee told the senate labor committee today.

Fitzpatrick was the first witness in the hearing authorized by the senate Tuesday when they passed the Kenyon resolution.

Just as a rotten apple will contaminate the entire barrel, so the steel industry is doing to the entire labor situation, he said.

This is the reason, Fitzpatrick said, why the steel industry must be organized now. Bad conditions in the steel industry, he said, were used to prevent getting better working conditions in other occupations.

More than the promise of a conference with steel officials is now necessary to get the striking steel workers back to the plants, Fitzpatrick, told the committee.

Fitzpatrick, first witness in the investigation authorized by the senate Tuesday, declared the refusal of the conference was the cause of the strike. But the workers will not go back to work until they get justice, he added.

Fitzpatrick made the statement under questioning of Senator Kenyon and told the senate that steel officials took every means to prevent unionization of their plants and declared bad conditions in the steel industry were used in order to prevent improved conditions elsewhere. W. Rubin, steel worker, told of events leading up to the strike.

"Would the strike be called off if you had the consent of officials for a conference?" Senator Kenyon asked.

"I don't think so," Fitzpatrick replied.

"There is now grounds on which we can get together but the mere

FIRE GUTS GARAGE IN INDIANAPOLIS

Approximately 100 High Priced Automobiles, Average Value of Which Was \$2,000, Destroyed

STARTS FROM AN EXPLOSION

(By United Press.)

Indianapolis, Ind., Sept. 25.—Fire this afternoon gutted the garage of Horace Wood and destroyed approximately 100 high priced automobiles. Fire hundred gallons of gasoline were stored under the building but the blaze was gotten under control before the blaze reached this.

Wood said that the fire started with an explosion among several cars which were stored in the back of the building.

For a time the three story building was threatened with destruction. All the workmen escaped.

The blaze could be seen for two miles around. Wood stated that the average price of the automobiles destroyed was \$2,000. He owned twenty of them which were used in the taxi service. The remainder belonged to patrons who had them stored there.

Within forty-five minutes the fire was brought under control.

LITTLE FEAR OF A COAL SHORTAGE HERE

One Dealers Says More People Have Laid in Supply Here Than Ever Before

SOFT COAL 50C MORE ON TON

If the coal miners go on strike November 1, the people of Rushville will not suffer much for the want of fuel, is the opinion of one Rushville coal dealer, who believes that more householders have laid in their winter's supply of coal, than ever before.

It is apparent that Rushville people have learned something from their experiences during the fuel shortage the last two seasons. They have bought heavily despite the fact that coal prices did not go down to the usual spring and summer levels. West Virginia coal, the kind most generally used here for furnaces and soft coal stoves, is only fifty cents more on the ton than it was last April. The price is \$7.50 a ton delivered. The increase in the cost of anthracite has not been much larger. The only difficulty is that anthracite is much more difficult to get than soft coal. Dealers have a waiting list for hard coal users.

TWENTY-FREIGHT CARS HOGS GET BACK TO ARE PILED UP IN WRECK 18 DOLLARS TODAY

L. E. & W. Train Hits Horse Near Mallott Park, Ind., and 35 Head of Live Stock are Killed

TRAINMEN NOT BADLY HURT.

(By United Press.) Indianapolis, Ind., Sept. 23.—Twenty freight cars were piled up and thirty-five head of live stock were killed when freight train number 81, Lake Erie and Western railroad, was wrecked a mile north of Mallott Park early today. The wreck was caused by an engine striking a horse that had strayed on the track. The engine and twenty cars left the track. The train carried 300 hogs, 18 head of cattle; ten calves and much valuable merchandise. Thirty hogs were dead and the remainder killed were cattle.

Cattle and hogs were wandering over the countryside and were being rounded up by officers.

All members of the train crew were from Peru but none of them was hurt seriously.

—Mrs. J. B. McCarty left today for a visit with her son, Carl McCarty, and wife of Knightstown.

Prices Advance 35 to 60 Cents in Indianapolis With Receipts 2,500 Less Than Yesterday

CORN STEADY AND OATS EASY

N.Y. TO HAVE GERMAN PLAY

Director Amberg Has Already Selected Two Copies.

(By United Press.) Berlin, (By Mail)—New York will soon have its first German play since the war started. Director Amberg of Shuberts, who has been a "seout" for that organization for many years, has been visiting German theaters and has already selected two comedies known as "Lagenbruder"—(Lad Brothers)—and "Rutschbahn"—(a slide or toboggan)—which he expects to have ready for New York showing by the holidays. They will be given American names and revamped to meet American theatrical tastes.

OUTBREAKS TODAY

IN 2 STEEL TOWNS

Continued from Page One
steel companies regard the situation as very favorable.

Meanwhile strikers hope for aid from Washington in the fight they have now begun against the action of the state police on denial of the right of free speech and assemblage under a proclamation issued by local authorities.

PLATON ROZSCHESTEVENSKY

Platon Rozschestevensky, metropolitan of Odessa, and one of the highest dignitaries of the Russian church, who comes to the United States to make an appeal for his country. The prelate, who is an avowed enemy of bolshevism, arrived from Novorossiysk on the Vladimir, after fleeing Russia because the bolsheviks had placed a price on his head.

Constitution of the Indiana Federation of Farmers' Assn

Object of organization and plan of operation fully set forth in constitution and by-laws of body.

In compliance with the great number of requests received from all parts of the county we are publishing the complete Constitution and By-Laws of the Indiana Federation of Farmers' Associations.

Constitution

ARTICLE I

Section 1. The name of this Federation shall be the Indiana Federation of Farmers' Associations.

Section 2. The object of this Federation shall be to promote the general interest of agriculture by studying the methods of production and distribution of farm products with a view of working out a system of greater economy and efficiency in handling and marketing the same; to encourage the production, marketing and distribution of live stock, to encourage and promote the co-operative organization of farmers and of those engaged in the secondary industries or mutual helping in a more efficient organization of the business of agriculture; to publish and issue reports, bulletins and instruction generally which will help in spreading knowledge of the best means of rural betterment and organization to effect a system of effective co-operation between the several county farmers' organizations throughout the state; to encourage and co-operate with educational institutions, societies and the several local organizations in all efforts to solve the questions relative to rural betterment and agricultural science; to co-operate where necessary in the purchase of seeds, fertilizers and such other commodities as may from time to time seem necessary and advisable; to make thorough study of all legislative matters and use our influence in securing the enactment of wise legislation and the defeat of unwise legislation.

In short the Indiana Federation of Farmers' Associations is formed for the purpose of promoting co-operation between the several county farmers' organizations of the state and the members of such organizations, increasing their efficiency and extending their usefulness. It is intended to secure co-operative action in advancing the common purpose of its members; uniformity and equity in business and laws and proper consideration and concentration upon questions affecting the financial, commercial and civic interests of the state.

ARTICLE II

Section 1. The membership of this Federation shall consist of the several county farmers' organizations of the state.

Sec. 2. Every applicant for membership in this Federation shall present an application in writing, accepting and agreeing to abide by the constitution and by-laws and any amendments thereto. Such application shall be submitted to and acted upon by the Board of Directors hereinafter provided.

Application for membership shall be acted upon by the Board of Directors at the first meeting of said Board following their receipt. A two-thirds vote of the Directors present shall be necessary to elect.

Sec. 3. Any member may withdraw from this Federation by submitting to the Secretary a written resignation accompanied by a remittance in full of all dues to date.

ARTICLE III

Section 1. Each county organization in good standing holding a membership in this Federation shall be entitled to one voting delegate to represent such county farmers' organization at the annual meeting or any called meeting of the State Federation of Farmers' Associations.

Sec. 2. All delegates so elected shall be members in good standing with the County Farmers' Associations which they represent.

ARTICLE IV

This Association is to be affiliated with other similar organizations that may from time to time be organized in other states and have for their purpose the same as this, and shall be auxiliary to any national organization of like purpose.

ARTICLE V
This Constitution may be amended at any annual meeting or at any special meeting called for that purpose, by a two-thirds vote of all members present, provided such amendment has been approved at a previous meeting of the Board of Directors and submitted in writing to the members at least one week previous to the meeting at which such amendment is to be acted upon.

ARTICLE VI

Section 1. The Board of Directors shall meet quarterly and shall have supervision over all the affairs of this Federation; shall actively prosecute its objects and shall have control over the disbursements of its funds. It may adopt such rules and regulations for the conduct of its business as it shall deem necessary and may in the execution of its power appoint such agents as it may think advisable.

Sec. 2. The majority of the Board of Directors shall constitute a quorum and any less number may adjourn from time to time until a quorum is present.

Sec. 3. All officers of the Federation shall be paid \$5.00 per diem and necessary expenses while engaged in official duties.

ARTICLE VII

Delegates

Section 1. The delegates elected by the several county farmers' organizations shall receive certificates of election, signed by the President and Secretary of their respective organizations, and duplicates thereof shall be legally mailed to the Secretary of the State Federation after such delegate has been named. Delegates shall receive \$5.00 per diem and necessary traveling expenses when attending meetings of the Federation.

Sec. 2. The time for electing delegates by the several county farmers' organizations which shall represent them at the annual meeting of the State Federation, shall be on or before the last Saturday in October of each year.

ARTICLE VIII

Committees

Section 1. The President shall have the power to appoint, with the approval of the Board of Directors such committees as they deem necessary. These committees shall keep full and complete reports of all meetings held.

ARTICLE IX

Amendments

Section 1. These By-Laws may be amended or added to at any meeting of the Federation upon the affirmative vote of a majority of all the delegates present at any regular or special meeting of this Federation.

BY-LAWS

ARTICLE I

Dues.

Section 1. The annual dues paid by each county organization joining this Federation shall be a minimum fee of One (\$1.00) Dollar for each and every member belonging to the county organization, but in no case shall the total amount paid by each county organization joining this Federation be less than Two Hundred (\$200) Dollars per annum. For the fractional year from March 25, 1919, to the third Tuesday in November, 1919, each county joining this organization shall pay only \$200.00.

Sec. 2. If any member of this Federation shall fail or refuse to pay their dues within a period of sixty days after the same become due; the membership of such member shall then stand suspended. The Board of Directors may, however, at its discretion and upon such terms as it may deem necessary and proper, restore such member to good standing. The time for payment of annual dues shall be at the time of the annual election held in November of each year.

ARTICLE II

Time and Place of Meeting

Section 1. The annual meeting of the Indiana Federation of Farmers shall be held in Indianapolis, Indiana, on the third Tuesday of November of each year. Notice of the time and place of each annual meeting shall be mailed to each member at least twenty days before the time of such meeting.

Special meetings may be called by the President when same is deemed necessary and shall be called by

him when requested in writing by three members of the Board of Directors. Notice of all special meetings shall be sent by the Secretary of this Federation to the Secretary of each county farmers' organization at least ten (10) days prior date of such meeting. In case special meetings such notice shall give the object of the meeting and the subject to be considered.

Sec. 3. At all meetings of the Federation a majority of all the delegates shall constitute a quorum.

ARTICLE III

Elective Officers.

Section 1. The elective officers of this Federation shall be a President, First Vice-President, Second Vice-President and ten directors, one director to be elected from each of ten districts of the state by delegates from said district, sitting in a separate body. Said district to be composed of the following counties:

Sec. 2. The Directors elected in the Second, Fourth, Sixth, Eighth and Tenth Districts shall serve until their successors are elected and qualified at the second annual meeting in November, 1920, and Directors from the First, Third, Fifth, Seventh and Ninth Districts shall be elected to serve until their successors are elected and qualified at the first annual meeting November, 1920.

At each meeting hereafter the districts in which the term of the directors expires, shall elect the director to serve for a term of years.

Sec. 3. The President, Vice-President and Second Vice-President shall be elected annually by the several state delegates to annual meeting and both Vice-Presidents shall have the same vote power as other members of Board of Directors.

In case of vacancy of any of above officers, the Board of Directors shall have the power to fill such vacancy and such member shall serve until his successor is elected and qualified at the next annual meeting.

The voting power of the President shall be used only in case of a tie.

Sec. 4. The President shall preside at all meetings of the Federation; he shall be a member ex-officio of all regular and special committees and shall perform such duties as are usual for such an officer.

The Board of Directors shall annually elect a Treasurer and a Recording Secretary, to hold office one year or until such time as their successors are duly elected and qualified.

Sec. 5. The Vice-President shall perform the duties of the President in event of disability or absence from meetings.

Sec. 6. The Treasurer shall receive from the General Secretary moneys paid to the Federation and shall disburse money upon the written order signed by the General Secretary and countersigned by the President or some one delegated him to perform this duty. He shall carefully account for all funds and shall make full report of all transactions to the annual meeting, or any time upon demand of the President.

The Treasurer shall furnish liability bond approved by the President and Board of Directors at the cost of same shall be paid by the Federation.

Sec. 7. There shall be a General Secretary appointed by the Board of Directors. It shall be his duty to keep thoroughly posted on all affairs of the Federation and inform all members of the Federation regarding matters of interest to them. He shall receive all moneys that may be paid to him by virtue of his office and carefully account for the same, and promptly pay them into the treasury, taking the Treasurer's official receipt for same and keep a complete and accurate record of the funds of the Federation. He shall have possession of all records and tend to the proper publication of reports; conduct the Federation correspondence and perform such other duties as may be required of him by the President and the Board of Directors.

The Secretary shall furnish liability bond approved by the President and Board of Directors at the cost of the same shall be paid by the Federation. Adv

Public Sale

We will sell on the Thayer Farm, 2 miles south of Morristown, Ind., on

Monday, Sept. 29th

BEGINNING AT 12:30 P. M.

62 HEAD BIG TYPE POLAND CHINA HOGS

The offering consists of 21 extra fine growthy yearling gilts, some of which will sell with breeding privilege to Victory Buster 345091; our new herd boar, which we recently bought at a long price; 29 Spring Gilts, a very choice lot; 10 Spring Boars, including one sired by Long Big Bone 2nd, the 1100 pound boar which won Grand Championship at our recent State Fair; 1 September yearling; and 1 March yearling; a tried boar, which has made good as a number of the best pigs we have are sired by him.

We have the largest herd of Pure Bred Hogs in Shelby county, now numbering between 400 and 500 head, thereby enabling us to cull closely and put up a very choice offering.

Our old herd boar, Big Bone Multiplier is, we believe, the most prolific breeding boar we know of, having sired \$20,000 of pigs, most of which have been sold by weight on the market within the last year.

If you want to increase the number of pigs farrowed in your herd just come to our sale and buy a boar or some gilts sired by him.

Just take a day off and attend this sale whether you wish to buy anything or not and we assure you we will furnish you a hogshow worth your while.

SALE WILL BE HELD IN LARGE TENT RAIN OR SHINE.

Lunch served by Ladies Aid of Morristown Christian Church.

Everette Sutton, Knightstown, and W. W. Zike, Morristown, Ind., Auctioneers.

RESTLESSNESS IN ITALY OVER FIUME

Only Premier and Foreign Minister Know Measures to be Used to Suppress D'Annunzio

COUNCIL IS RARELY CALLED

Rome, Sept. 25.—With all parts of the country aroused over the tense-ness of the Fiume situation, Italy was nervously awaiting the decision of the crown council which meets today for the first time since 1882.

Apparently only Premier Nitti and Foreign Minister Tittoni know the proposal which will be made to the program to suppress Gabrielle d'Annunzio, but it is generally believed that they will be drifted.

Nitti's adversaries assert that his resignation will solve the Fiume crisis and quiet the country.

"We are not on the eve of revolution or on the verge of bankruptcy," said one Roman paper.

WOULD-BE BRIDE ASKS \$15,000

Columbus, Ind., Sept. 25.—Miss Oma Orr, daughter of Perry Orr, of Wayne township, has brought suit against John Beam a wealthy Bartholomew county farmer, for breach of promise of marriage, demanding \$15,000. The plaintiff alleges the defendant proposed marriage, that she accepted, and the date for the wedding was set for August 21, 1918. The defendant left to avoid the marriage, she charges.

JAPAN IS HIT BY THE HIGH PRICES

Not Long Ago Foreign Resident Could Live Like a Food Profiteer on Small Income

DISTRESS ALL THE DEEPER.

Government Prepares Measures Against Profiteering But They Seem to Have no Effect

By RALPH H. TURNER.
(U. P. Staff Correspondent.)

New York, Sept. 25.—Out in Japan, the time was—and not so long ago, either,—when the foreign resident could live like a food profiteer on an income that wouldn't maintain parlor, bedroom and bath in the "States".

A clap of the hands speedily brought forth a retinue of servants whose aggregate salary would scarcely supply Coney Island money for a New York "domestic. A monthly rental of \$20 to \$50 obtained a house roomy enough to accommodate two or three families of American apartment dwellers. And the food bill, including afternoon tea and "generous entertaining for the rest of the "colony", would just about settle for the butter and eggs at the corner grocery in this country.

But now—! Japan, like every other civilized land, has been struck head-on by the high cost of existing.

Roderic C. Penfield, American representative of the World Salesman, published in Yokohama, who has just returned from the Mikado's domain, told to-day how high prices have hit that country.

"Distress in Japan is ill the deeper," Penfield said, "and official alarm all the keener, because of the wide gap which was spanned when prices jumped to the present level, almost equalling costs in the United States.

"It is predicted that the high cost of living will cause even greater trouble in Japan this fall than occurred a year ago, when the leading cities were the scene of serious food riots. The rice shortage already has begun to assume a threatening as-

pect. There is scarcely any reserve stock in Korea, most of it having been sent to Siberia to supply the Japanese army.

"The Koreans, moreover, have planted much less rice than usual, arguing that whatever the size of the crop, the Japanese government will commandeer it at low prices. The Chinese, also, are hesitating to export rice to Japan, feeling they will need it themselves.

"The government has prepared measures against hoarding and profiteering, but so far they seem to have had no effect.

"Servants, who, because of their low wages, always have offered foreign residents an advantage over life in America, are now demanding nearly twice their former pay. Through their guild, they are able to enforce many of their demands. In one case an American family, because it owned an automobile, was ordered to employ a man servant instead of a woman. It was held that if the family could maintain a motor car, it could afford to pay a man's wages.

"House rents have gone up from one third to one-half. Coal is about \$14 a ton, kerosene is 50 cents a gallon and gasoline is about a dollar a gallon.

"Custom-made silk shirts, which in the old days were the supreme delight of the American tourist at \$4 or \$5 apiece, now cost from \$7 to \$10.

"And rikisha fares—no longer will a coolie pull you all over town for half a dollar. 'Shorter hours, higher pay and lighter loads' is the slogan to-day of the rikisha men's union."

Laundry, according to Penfield, is the only remaining item of cheapness in Japan.

"It was somewhat of a jolt," he said, "to learn when I reached San Francisco that I must pay 35 cents to have a silk shirt laundered and 75 cents for a dress shirt. In Japan the standing price was four cents a garment, whether it was a cotton undershirt or dress shirt with 'boiled' bosom."

DUBLIN.—West of Ireland "process servers" have notified the county court judges, that failing an increase in salaries, they will strike and tie up the business of the civil courts.

Lansing's Silence.

Secretary of State Lansing's silence on the charges of William C. Bullitt that he disapproved many things in the peace treaty, serves to lend emphasis to the rumor that the secretary of state will resign. Such rumors were in circulation before Mr. Lansing returned from the Paris conference in which he played a minor part, they were in evidence again when he returned to this country and now they are once more audible. Recent stories concerning the resignation, in fact, have come from the president's special train and have attracted particular notice.

In the absence of an exact official statement concerning the relations between Mr. Lansing and the president, it can be said that the impression is growing stronger constantly that Mr. Lansing will not long remain in the cabinet. One report is that he will leave it as soon as the senate disposes of the peace treaty. It has been for months almost a mystery how Mr. Lansing can permit himself to remain in the cabinet in view of the well known fact that he does not sanction some of the important phases of the peace treaty and, more than that, is flatly opposed to some of these features. That he had no liking for the Shantung transfer which the Japanese induced President Wilson to sanction is well understood. The recent testimony of Mr. Bullitt, who was for a time close in the confidence of Colonel House, telling how utterly Mr. Lansing disapproved many things in the treaty and covenant, has given rise to no end of comment to the effect that the continuation of Mr. Lansing as head of the state department seems almost incredible.

The testimony given by Mr. Lansing himself before the senate foreign relations committee in which he displayed an astonishing lack of knowledge concerning many things which were taken up by the president and the representatives of other powers is likewise looked upon in many quarters in Washington as making much further tenure of office by the secretary of state as unlikely.

The opinion is freely expressed here that if Secretary Lansing, with out waiting for the senate to act upon the peace treaty and the league covenant, were to resign and to tell the American people openly and frankly what he thinks of certain of the negotiations at Paris and the results of those negotiations and also the probable future effect upon the United States of those negotiations, he would be doing the greatest public service of his career.

Your Neighbor's Yard

We all take a look at our neighbor's yard as we pass by. If it is attractive, and appeals to the eye, we have something nice to say of it, or we think it without saying.

Sap and Salt

By BERT MOSES

Life is just a chase after the dough.

The sooner you get experience, the less it will cost you.

What we need in public office are men with more push and less pull.

There is only one problem in politics—how to get graft out and honesty in.

The reason a lot of people don't go into debt is because no one will trust them.

Hez Heck says: "The devil never married because he was shrewd enough to see that he had troubles enough without a wife."

bor's yard as we pass by. If it is attractive, and appeals to the eye, we have something nice to say of it, or we think it without saying.

If it is rusty, and weather beaten, and neglected, we wonder what ails our good friend across the way. We may even pity him in his apparent inability to keep up to date.

In time we may even begin to look upon that yard as a sort of eye sore, and become just a little peeved at his carelessness.

Because, you know, we do not think much of careless people, anyway.

But what of our own yard?

Do we give it that care and attention that insures it from just such thoughts and remarks by our neighbor?

Do we look it over carefully each week, with a view to eliminating the undesirable, and enhancing that which beautifies the community?

Are we a beautifier, or just a critic?

If every man will take this little lesson home, and give it serious consideration, it will be but a short time when we will criticize our neighbor's yard, and our neighbor will not criticize ours—because there will be nothing to criticize.

Since America is a land of producers, it would be quite in order to produce a little harmony, sanity and cohesiveness. Pulling at both ends only widens the breach in the middle.

There is one overpowering reason why country editors never go on strike. The "devil" might seize the office and get out a better sheet.

Soft drinks are going up, they say. Of course—before they go down.

Most men are willing to be ruled by the majority, provided they constitute the majority.

Somehow, these days we do not see much of that familiar label "Made in Germany".

Amusements

Episode 9 at Mystic

Episode Nine of the Elmo Lincoln serial, "Elmo the Mighty," will be shown at the Mystic Theatre today. The action continues fast and furious in this episode, and the "Masked Phantom" again appears on his motorcycle just in time. This episode works up to an intense climax, with a real thrill.

Charming Picture at Princess

Charming indeed, is the story of "True Heart Susie," David W. Griffith's new picture which will be shown at the Princess theatre today and tomorrow. It is one of those pastoral themes which rise to the dignity of screen classics by reason of the artistry of this master producer, and which invariably hold their own against criticism.

In this fascinating story of a little Hoggar girl who loves a boy with rare devotion, the heart interest is supreme, and the suspense wonderfully compelling. Susie May Trueheart loves William Jenkins so well that when a politician fails to keep his promise to send William to school, she sells butter and eggs

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

A prominent jeweler of Toledo, Ohio, is a self made man. When quite a small boy, the youngest of a family of five children, his mother became a widow. Father carried no insurance, and the estate consisted of a homestead, heavily mortgaged. The good mother took in boarders and by this means forced the wolf to seek other doors. At that it was hard skidding. As is usual in such cases the two boys grew up and made good and the three sisters married well. The mother still lives and in much comfort.

This summer Sam, the jeweler, returned to the family homestead which is covered with crimson ramblers instead of mortgages and he and his mother talked over old times. "Sam," she said, "do you remember how I made you wait until the boarders finished their meals before you were fed?" "Yes, mother I do." "And do you remember once when I couldn't give you dessert because Bill Tate had taken a second helping?" she asked. "Yes, mother I do," he replied. "That must have been pretty hard for you to bear," the mother volunteered. "Oh, not nearly as hard on me as on Bill," said the son. "Why I don't understand?" from the mother.

"Well, mother, I looked in the window and saw Bill take that second helping so I just waited until I got through. Then I went over to his home, found him in the backyard and if ever a kid got a licking Bill did."

(Contributed by G. C. Clark, Toledo, Ohio.)

CASH PRIZE OFFER: A prize of \$1.00 will be awarded each contributor of a joke to OUR DAILY LAUGH which we accept. Only new jokes, those never before published, are considered. Contributions will not be returned unless stamped envelope, bearing your address, is enclosed. Mail stories to contest editor, Daily Republican.

and even her cow to raise funds for the purpose. So it happens that William goes to college, but he is unaware that his good angel is Susie to whom he writes desultory letters.

So it happens that when he leaves college and is ordained a minister, he comes to his home as pastor of the village church. Then the tragedy of poor Susie's life is born. William weds a flighty beautiful girl who repays his love by accepting the attentions of less worthy men. But she is punished by fate. Susie, although she never has forgotten that she was the bearer of flowers at the wedding of the man she loved, protects his erring wife, and it is only after the latter's death that William comes to a realization of Susie's great love and both find happiness.

Sweet Lillian Gish plays the part of Susie and Robert Harron is William Jenkins. Clarence Seymour plays the role of Betty the butterfly wife. The support generally is of the finest grade.

The Hot Blast Air Tight FLORENCE

Beware of imitations or people who claim to have a stove like or just as good as the FLORENCE. Do not be deceived by such false claims and find out when too late. Examine the Florence carefully before you buy.

The FLORENCE will burn WOOD as well as coal and will burn coal better than any other stove made

The Only Absolute Smoke Consuming Stove on Earth
No Smoke! No Soot! No Dirt! No Clinkers!
Everything is Consumed

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire keeping principle.

It will be as good a fire keeper twenty years hence as it is today.

The HOT BLAST AIR-TIGHT FLORENCE will heat twice the space that can be heated by any other stove on earth at one-half the cost. The only perfect floor heater that is or has ever been made.

All features are patented and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal, wood, slack and all the smoke and gasses. No filling up of the stove pipe or flue with soot. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

Prices from \$29.00 to \$58.00. Why pay \$15.00 to \$20.00 more for other makes of stoves when they will not equal the FLORENCE

MARINES MAY ENLIST FOR A SHORTER TERM

President Wilson Has Directed That Enlistments May be For Two, Three or Four Years

FORMERLY FOUR YEAR JOB

Washington, Sept. 25—Officers of the Marine Corps are looking forward to a marked increase in the number of enlistments in that branch of the service due to the fact that President Wilson has directed that enlistments in the Marine Corps, until June 30, 1920, may be for terms of two, three, or four years.

While enlistments in the Marine Corps have shown steady increase in recent months, recruiting officers say that many men who desired to serve with the Marines have declined to enlist for four years and have gone into some other service where the enlistment period was shorter.

The following telegram announcing the change was sent to all recruiting officers of the Marine Corps today: "The President has directed that enlistments in the Marine Corps until June 30, 1920, may be for terms of two, three or four years and all laws applicable to four year enlistments shall apply under such regulations as may be prescribed by the Secretary of the Navy to enlistments for a shorter period, with proportionate benefits upon discharge and reenlistment."

BOMBS KILL 3 PERSONS

Batavia, New York, Sept. 25—The Black Hand is believed to be responsible for the wrecking by bombs of a dwelling house here early today, resulting in the death of three persons and injury to four.

Nearly 1,000 tons of ground limestone will be applied to wheat ground in Daviess County this fall, County Agent D. D. Ball estimates, as a result of demonstrational work to show the value of limestone on acid soils.

(U. P. Staff Correspondent.)

Berlin. (By Mail).—The new republic is finding selection of diplomats a real job. Of course, it isn't entirely necessary that Germany make out a whole slate of ambassadors and ministers just yet, particularly if entente nations only send here charge d'affaires. But, the policy of the government will probably be, in such an event, to send out charges and consuls—the charge perhaps being the man intended for the higher post of minister or ambassador when full diplomatic relations with the outside world are resumed.

Germany's difficulty arises from the fact that some of the men of the old diplomatic service would be persona non grata at certain capitals, while the new regime so far has not produced many big prospects of ambassadorial size.

Kills Pesky Bed Bugs P. D. Q.

A Two ounce box of P. D. Q. makes a full quart of the best bug-killer on earth. Better than a barrel of old-fashioned bug-killer.

P. D. Q. [Pesky Devil's Quietus] kills like a 42-centimeter shell. It settles bedbugs, fleas, roaches, ants and chicken lice, and not only kills the live pests, but the eggs as well.

P. D. Q. won't injure clothing, carpets, curtains, draperies or wall paper. Try it on the dog and see the fleas flop.
Your druggist has it or can get it for you.

So far, in connection with the American ambassadorship, only two names have been mentioned—Maximilian Harden and Dr. Solf, the former colonial minister and later foreign minister in the closing days of last year.

Harden hasn't a chance to go to the Washington post. He has made more or less of a name for himself in America—but that doesn't count for anything with the present situation. In fact he isn't taken seriously by the present government in that connection.

On the other hand, Solf has considerable backing for the place. He appeared during the war as an opponent of many of the government's policies; and as foreign minister last winter stuck strongly for strict adherence to the "Fourteen Points" in application of the peace to Germany. He speaks English scarcely an accent, is favorably known in many prominent American and English quarters, has traveled extensively, met Presidents Taft, Roosevelt, McKinley and has been a close student of President Wilson's policies. He and Col. House were friendly before the war.

Solf looks, at first glimpse, somewhat like American Secretary of Interior Lane, though he is of heavier build and of more rugged countenance than the American.

Solf distinguished himself—in Germany at least—last winter by his open breach with Haase, leader of the independents. Solf declined to associate with Haase, holding that as leader of the independents he was cognizant of a big "slush fund" which the Russian Bolsheviks had placed to the credit of the radicals here in Berlin. This caused quite a sensation and helped undoubtedly, in foreign countries, to show that there was no government alliance or sympathy with the Lenin-Trotsky regime.

He is of about middle age, active, diplomatic, highly educated and according to many substantial Germans he would be a good representative of the new republic.

Former American Ambassador

DECLARE PRESS AGENTS MUST DIG UP NEWS

Publicity for American Corporations Is Legitimate Only When Based on Public Interest

ADDRESS TO ADVERTISERS

New Orleans La., Sept. 25.—Publicity for American corporations is legitimate only when it is based on public interest in the information it contains, it was declared by James I. Clark, manager of the service department of the National Bank of Commerce in New York, at an address here to-day before the Financial Advertisers' convention.

When built on this principle it is not only a guide post to clear thinking set up by the public, but a contribution to the success of the newspaper that publishes it, Clarke said. "The benefit to the institution whose name becomes an essential part of the news value, should rightly be incidental, although for that very reason more certain, lasting and dignified."

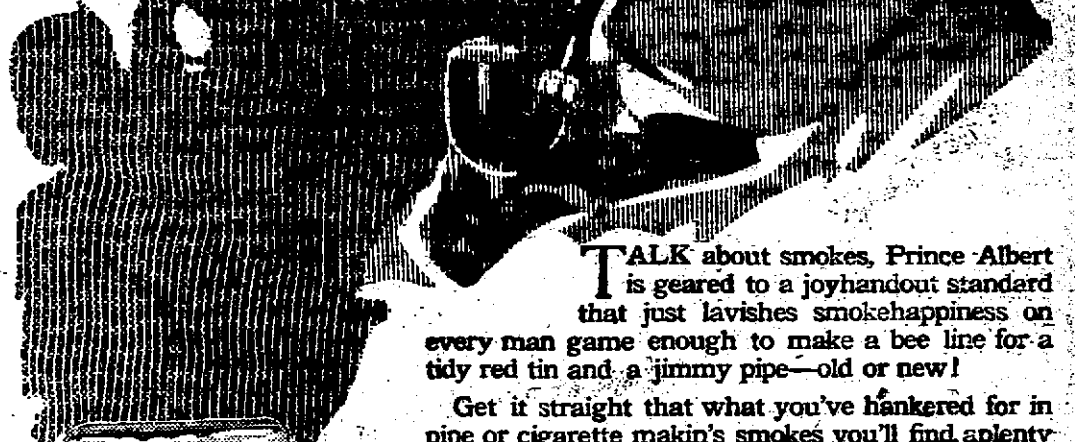

Bernstorff is known to regret that his position with the American people is such that he could not again become ambassador to Washington. While he has been booked for the Rome post, it is possible that he will decide to abandon diplomacy in favor of politics, and run for the Reichstag in the coming elections.

The British and French posts do not even have any "among-those-mentioned" people. It isn't a case here of difficulty in finding places "for all the deserving"—but rather of finding "deserving" and capable men for the places.

Four herds of cattle in Clay County have been tested for tuberculosis since the work started recently, County Agent H. E. Alcott reports, and not one afflicted animal or reactor has been found in the entire lot of 45 head.

PRINCE ALBERT

the national joy smoke

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tippy red tins, tidy red tins, handsome round and half round tin humidor—and that clever, practical pound crystal glass humidor with sponge-moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

"SAFETY WEEK" IS CELEBRATED

Three Thousand Safety Engineers and Experts are at Cleveland To-day in a Conference

DISCUSS SAFETY IN INDUSTRY.

On Sunday Ministers of Safety Will Preach on Subject "Stop, Look, and Listen"

Cleveland, Ohio, Sept. 25.—Three thousand safety engineers and safety experts from all parts of the country were here to-day in a conference on how to make life and limb safe in industry.

They represent the National Safety Council at the eighth annual congress of that organization. In conjunction with the congress, Cleveland is celebrating "Safety Week" in an endeavor to demonstrate that carelessness is responsible for 75 per cent of all accidental deaths and injuries.

The safety congress has mobilized a vast and varied assortment of advertising matter bearing on the subject of safety. Cleveland is literally a huge billboard, upon which is pasted posters of every size and color, bearing printed and pictured mottoes, slogans and adjurations dealing with saving life and limb on the streets, factories, homes, railroads and even the waters.

On Sunday these ministers of safety will preach the gospel of "Stop, Look and Listen" from the pulpits of all the churches. The menus in all the restaurants fear the shibboleth of "Safety First". The street cars are plastered and hung with similar signs. "Safety First" stares at the pedestrian from every point, where it can be hung nailed, pasted and propped.

The congress will be in session one week. Two days will be devoted to women in industry. Ida Tarbell, Miss Mary Van Kleeck, director of women in industry service of the United States department of labor, and other women and men well known in safety work will talk at the scheduled 35 sessions.

LONDON.—Sentenced to a one month's imprisonment at Sandhurst, Peter Lee, shipyard laborer, yawned and asked languidly if it carried "hard labor". "No," said the magistrate, and Peter yawned again.

A. C. BOLING, Rushville, Indiana, Sept. 23, 1915.
THE R. L. BOLING COMPANY
INDIANAPOLIS COLUMBUS PITTSBURGH PHILADELPHIA

The Martha Poe Chapter, No. 143 O. E. S. will have a practice meeting at three o'clock Saturday afternoon in the Masonic Temple.

The Ladies Aid society of the First Baptist church held a business meeting in the parlors of the church yesterday afternoon. At this time arrangements were made to give a penny supper Friday evening, October 10.

Mrs. Mary Jane Carr was hostess for the Psi Iota Xi sorority last evening at her home in North Perkins street. No business of importance was transacted at the business session, the hour being spent socially, during which refreshments were served to the guests present.

Mrs. Harvina Gray, Mrs. Rachel Buell, Mrs. Fanny Hinchman and her sister, Mary E. James of Portland, Oregon, spent the day yesterday as the guests of Mrs. W. H. Smelser. All were school children together, with the exception of Mrs. Gray, and they enjoyed the day immensely.

The guests who attended the forty-fifth wedding anniversary of Mr. and Mrs. James Smith of near Falmouth, Tuesday were: Mr. and Mrs. Wade Sherman, Mr. and Mrs. John Nipp, Sr., Mrs. Elwood Kirkwood, Mrs. Cliff Haskett, Miss Iva Daubenspeck, Mr. and Mrs. Vern Smith and son Ralph, Mr. and Mrs. Harvey Arnold and Miss Lucy Vance.

Mrs. John Morris entertained the members of the First Presbyterian Aid society yesterday afternoon at her home in North Jackson street.

The regular business program and social time was enjoyed and at the close of the afternoon dainty refreshments were served. The assisting hostesses were Mrs. M. V. Spivey and Mrs. John Q. Thomas. Twenty-three members were present.

Mrs. Paul Morris was hostess for a miscellaneous shower Tuesday afternoon at her home south of the city, honoring Miss Helen Norris, a bride-elect. The house was beautifully decorated with gold and red and the color scheme of pink and green were carried out in the refreshments which were served late in the afternoon. Thirty guests were present to enjoy the afternoon socially and with music. Dainty favors, consisting of tiny baskets of ping-pong with a cupid mounted on top were given out. Miss Norris received many useful gifts.

Miss Margaret Kirk was delightfully surprised by a number of her girl friends last evening, the occasion being her 15th birthday. At six o'clock a delicious three course supper was served, the color scheme being pink and blue. The table was adorned with a bouquet of bitter sweet and covers were laid for Norma Oneal, Allene Geraghty, Mary Mullins, Florence Cooning, Alice Montgomery, Leah Schatz, Margaret Trader, Anna Reardon, Eloise Kelley, Helen Kirk, Dorothy Schatz and Master Joe Buschmohle, Jr. The Misses Libby Schatz and Bertha Moore were the assisting hostesses.

The Women's Relief Corps met yesterday afternoon in regular session at the G. A. R. room in the court house. After the regular business session, and interesting program was given as follows: reading on Jennie Lynn, the great singer,

by Mrs. Havens; reading, "Mending the Old Flag," Mrs. Selman Webb; reading, "The Keepers at the Gate," Mrs. Phoebe Phillips; reading, "Flanders Field and the American Answer to It," by Mrs. Ida Lee; reading, "That Lillies Grow in Flanders Fields as Well as Poppies," Mrs. Alice English. Talks were given by Mrs. Souders of Kansas, and Mrs. Gupton of Kirksville, Missouri, who were delegates to the national convention at Columbus.

The wedding of Miss Leila Kennedy, daughter of Mr. and Mrs. Jesse Kennedy of Indianapolis, and Cullen Sexton, son of Dr. and Mrs. J. C. Sexton of this city, will take place at high noon Saturday, in the Methodist church at Irvington. Only the members of the immediate families and a few friends will be present.

C. W. Schaeffer of Cincinnati, who will be best man at the wedding arrived here today to be the guest of Mr. Sexton. Miss Dorothy Sipi of Carthage will be the other attendant. Following the ceremony, the bridal party will go to the Columbia Club for a wedding breakfast and at three o'clock the bride and bridegroom will leave for a wedding trip to Cleveland, Ohio. They will be at home in a furnished apartment in Cincinnati.

Miss Kennedy is the grand daughter of Robert Kennedy, 341 West Tenth street and is well known in Rushville, where she has frequently visited.

There will be a call meeting of the Dr. Gilbert class of the Main Street Christian church tomorrow evening at the home of Mrs. Ed Chambers in East Seventh street. A good attendance is desired as business of importance will be discussed at this time.

MRS. J. S. FRELINGHUYSEN

A new photograph of Mrs. Joseph S. Frelinghuysen, wife of the senator from New Jersey. The Frelinghuysens have taken a house in Sixteenth street, Washington, where they entertain extensively.

LABOR OPPRESSION
THE ROTTEN APPLE

Continued from Page One
Fact of calling a conference will not be sufficient to recall 350,000 workers who have left their jobs. They have been subjected to brutality and murder. They assert that they will not go back to the mills

until they get justice," Fitzpatrick declared.

A government conciliation board may grow out of the steel strike hearing here, beginning before the senate labor committee today, it was suggested by Senator Kenyon.

Although there is opposition to compulsory arbitration as a general remedy, Kenyon said, a voluntary conciliation board to investigate the differences between labor and capital and lay the facts before the public, might be the outcome.

TAX DUPLICATE SHOWS BIG RAISE

Preliminary Compilations of State Board of Tax Commissioners Show Increase of 150 Percent

JUMP IN PERSONAL PROPERTY.

Tax Duplicate Will be Increased From \$2,405,391.661 to More Than Six Billion Dollars.

Indianapolis, Ind., Sept. 25.—The total tax duplicate for the State of Indiana will be increased from \$2,405,391.661 to \$6,028,588.491, or 150 per cent, according to the preliminary compilations of the State Board of Tax Commissioners.

In other words, the duplicate this year is almost exactly two and one-half times the duplicate of last year. In accordance with the provisions of the new tax law, the tax rate for the state as a whole cannot exceed two-fifths of the rate now prevailing. There will be some changes in the valuations of property and the two-fifths rate will not apply specifically in every local jurisdiction. The rate will be higher in some municipalities, especially where more revenue is necessary on account of loss of liquor license fees and other losses in revenue. Nevertheless, considering the state as a whole, the rate may not exceed two-fifths of the rate last year except by special permission of the State Board of Tax Commissioners.

The preliminary compilations of the state board indicate an increase in the assessment of real estate and improvements from \$1,500,892,290 in 1918 to \$3,687,399,250 in 1919, or an increase of 145 per cent. Real estate and improvements, outside incorporated cities and towns increased from \$1,008,940,615 in 1918 to \$2,323,114,380 in 1919, or 130 per cent. At the same time real estate and improvements within incorporated cities and towns increased from \$491,951,675 in 1918 to \$1,364,284,870 in 1919, or 177 per cent. These preliminary figures show conclusively that there is a larger increase in the assessment of real estate and improvements within incorporated cities and towns than in the country. In the former, the increased assessment amounted to 177 per cent and in the latter, 130 per cent.

Assessments of real estate were made early in the present year. Since that date, there has been a tremendous increase in the values of all real estate and improvements, rural, urban and city. It is probable that farm real estate has increased in value from \$25 to \$75 an acre since March 1. Similar increases have also been realized in the values of city real estate. Even though the state tax board has insisted upon the assessment of real estate and improvements at its full value, it is certain to go upon the tax duplicate considerably less than its value at the present time and especially when taxes on the 1919 assessment are collected.

The largest percentage increase in the valuation of property figures of the state board applies to property assessed by the State Board of Tax Commissioners directly. The state tax board assesses directly interurban lines, railroads, sleeping car lines, telephone and telegraph companies, banks and trust companies and public utilities. In this group, the assessment was increased from \$249,427,777 in 1918 to \$950,220,499 in 1919, or an increase of 192 per cent. The smallest increase in valuation is shown in the assessments of personal property. The assessment of personal property increased from \$655,056,594 in 1918 to \$1,606,687,932 in 1919, or 107 per cent.

The State Board of Tax Commissioners has already called attention to the fact that real estate and improvements which comprised 64.68 per cent of the total duplicate last year will comprise less than 60 per cent of the duplicate this year. If the pending constitutional amendment carries, and the General Assembly is permitted to classify property for taxation, a great volume of intangible property should be brought upon the duplicate and the

Every Dot represents Ten Satisfied Delco-Light Users

More Than 75,000 Satisfied Users

DELCO-LIGHT was designed and built by men who were raised in farm homes—who experienced the discomforts and inconveniences of farm life—and who set out deliberately years ago to develop an electric plant that would provide city advantages for rural communities.

They were the same men whose engineering talent had made DELCO Starting, Lighting and Ignition Equipment for automobiles the standard of the world—

They knew electricity—and they knew the needs and limitations of farm life—

They knew that an electric plant to give service in a farm home must be simple, so that it would not get out of order and require complicated repairs—

It must be easily operated and require little attention—

It must be very economical in operation—

It must be built to stand hard usage and it must last indefinitely—

It required five years to develop a plant that would measure up to these specifications.

There were five years of hard engineering effort back of DELCO-LIGHT before the first plant was put on the market three and a half years ago.

Today DELCO-LIGHT is furnishing the conveniences and comforts of electricity to more than Seventy-five Thousand farm homes.

It is providing an abundance of clean, bright, economical electric light for these homes. It is furnishing power to pump water, operate washing machine, churn, separator, vacuum cleaner, electric iron, milking machine, and other small machinery.

And everywhere it is demonstrating its wonderful efficiency—and actually paying for itself in time and labor saved.

DELCO-LIGHT

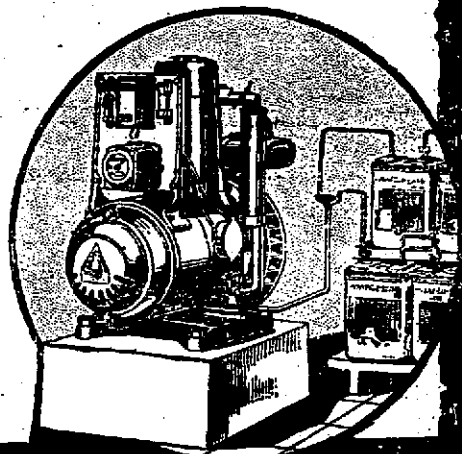

A complete electric light and power plant for farms and country homes, self-cranking—air cooled—ball bearings—no belts—only one place to Oil—Thick Plates—Long Lived Battery—RUNS ON KEROSENE

FIRE CHIEFS MEET TODAY

Northwestern Association Entertained at Decatur

Decatur, Ind., Sept. 25.—Better cooperation among fire chiefs for fighting and preventing fires and the exchange of ideas and suggestions were the aims of the Northwestern Indiana Fire Chiefs' association which met here today.

Fifty-six chiefs representing fourteen counties were here and the local fireman exerted every effort to make the meeting a success. The state fire marshal was to make an address on "Fire Prevention and Inspection and Condemning Buildings". Chief Archie McCabe of Muncie, talked on the use of motor apparatus in modern fire fighting equipment.

Stop Itching Skin

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. A little Zemo, the penetrating, satisfying liquid, is all that is needed for it banishes most skin eruptions, makes the skin soft, smooth and healthy. The E. W. Ross Co., Cleveland, O.

ONLY 6 ROOMS LEFT IN WESTMINSTER ABBEY

Famous Britishers Will Have to Hurry up and Die if They Want to be Buried There

TO BE CREMATED FIRST.

(By United Press.) London. (By Mail)—Famous Britishers will have to hurry up and die if they want to be buried in the national Valhalla, Westminster Abbey. There is absolutely only room for six more, and they will have to be cremated first, according to Rev. Canon R. H. Charles, who is in charge of abbey graves and interments.

The suggestion, cabled from Australia, that the abbey should be the last resting place of a casket of bones, alleged to be those of England's patron saint, St. George of Cappadocia, which were excavated by Australian troops in Palestine, finds little favor with Canon Charles. "I don't care 'tuppence' about his bones," he declared emphatically. "Just now I am more concerned about the remains of England, if the labor troubles don't cease."

Anyway, there is only room for the remains of six more famous people in the abbey. I am trying to secure additional ground for inter-

ments; there are some old houses behind one of our Norman walls which will have to come down some day. I want the space reserved for the interment of the famous men. There are so many great men, nowadays, and there will be so many in the years to come that space for six seems inadequate. If we get this space we might have room for St. George."

Among the newer scientific toys is one, which transmits pictures electrically, using the same principles as are applied to telephotography.

SPAIN SEEKING CAUSE OF UNREST

Situation of Never-Ending Series of Strikes and Riots Grow More Serious Weekly.

FEAR MONARCHY OVERTHROW.

German Money and High Cost of Living Blamed for Continuous Upheaval in Nation.

(By United Press.)
Madrid, (By Mail)—Spain, wrought up because of the never ending series of strikes, rebellions and riots, is seeking the cause of the unrest. Is it the effect of German inspired bolshevist propaganda, or is it the high cost of living? This is the question Spanish leaders are trying to answer. In the meantime the situation grows more serious weekly.

In Andalusia the wheat supply is being burned, in Murcia the fruit trees and vines are being destroyed, in Valencia the strikes are becoming more and more effective, in Catalonia assassinations are becoming more frequent.

The bourgeoisie, in self defense, having but little confidence in the state troops, is organizing its "Somaten", a national guard composed of bourgeoisie members. This organization in Barcelona alone has a membership strength of nearly 80,000.

Investigations carried on to date have brought out the fact that the usual cause cited as the reason for the outbreaks is the high cost of living. On the other hand, Spain is not at all suffering from such prices as prevail in the remainder of Europe. The costs have increased from 25 to 50 percent as compared to 300 percent in France. However, in most cases throughout Spain wages have gone up quite as much as food prices.

In view of this rather limited increase in living expenses the accusation that German money is behind the various disturbances seems to be fully justified.

Germany's program throughout Europe at this moment is to stir up trouble and dissatisfaction. Order within Germany, disorder in all other countries is Berlin's desire. Apparently Spain has proved to be more receptive to the trouble-making spirit, for in no other nation, not even those most severely torn by war, have the anarchists and syndicalists made such astounding headway.

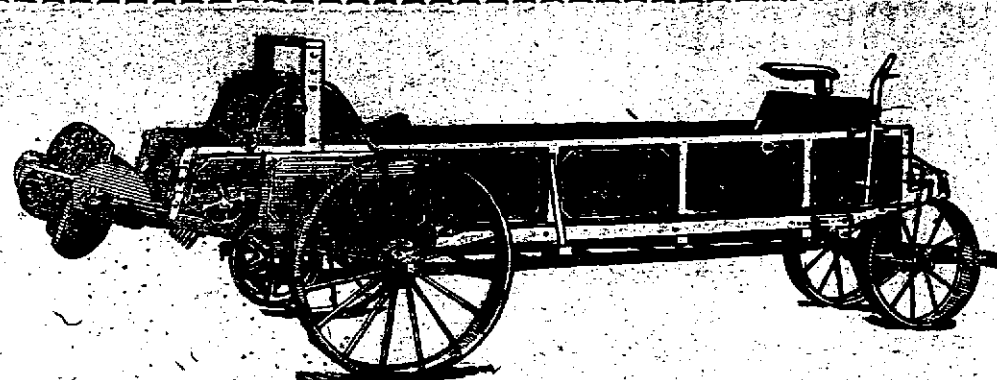

Spain will suffer, and suffer severely if the present unrest is allowed to continue and grow. The overthrow of the monarchy, which is the avowed aim of the more radical rebels, would leave the country a prey to conditions fully as terrible as those which have torn Russia. There are now no statesmen in sight who could replace the king. The establishment of a moderate republic is impossible at this moment. It must be either a complete re-establishment of the authority of the soviet republic so earnestly sought by the rioters.

Under ordinary circumstances Spain should now be the most prosperous of countries. She successfully avoided the war, she has kept her young men safe from cannon-fire, she was, in short, enriched by the war when her neighbors were almost impoverished. What in Spain is regarded as a high living cost seems ridiculously cheap to the people of France, England and Italy.

The Madrid Correspondent of the Petit Parisien in a message to his paper gives the following explanation for the troubles:

"It is Germany that has brought this trouble to Spain. Seizing the opportunity to exploit the rivalry of the political factions, Germany has succeeded in poisoning the public mind. Immense sums of money have been subsidized, and no possible means of causing unrest have been overlooked."

The campaign of four years of propaganda is bearing fruit. At Madrid the German ambassador, Prince von Hatzfeldt, turned his embassy into a headquarters. This prince, who was nothing more than a spy, was surrounded by spies from the time of his coming to Spain and including his departure. This band worked in

Nisco Spreaders

Now that the season for preparation for another crop has come, many are thinking of buying a Spreader. This Nisco is the one best on the market. I know of no one who has one of them who would not tell you that he had been wanting—a spreader that did the work just as he wanted it done. Just yesterday I had word from the factory saying that in the last two months they had sent out six trains—totaling 157 cars, loaded with 2,432 spreaders. This will give you some idea of how popular they are. These shipments went into Indiana, Michigan, Illinois, Minnesota, Wisconsin and Nebraska.

We have them out here with the following farmers:

cessantly against Spain. It was this group which was behind the attempted assassination of Count Romanones.

"This work has ceased with the end of the war. On the contrary it is just now becoming more effective than ever before."

"Had Spain been able to resist the constant and clever secret work against her, she would have had to be more than a nation of mortals, she would have had to be a nation entirely removed from this globe. But Spain wasn't so distant. She was merely a country of mortal beings, and hence succumbed to the poisonous injections."

"Her case is not yet hopeless. But the situation is nevertheless serious. It is essential that once for all Spain deliver herself from the machinations of Berlin. She must regain her full liberty. Then, and then only, can she return to the work of normal times. Then only can her ministers perform their work and maintain their offices instead of finding themselves suddenly deposed by some mysterious-magician."

WORK IN E. A. DEGREE

Phoenix Lodge, No. 62, F. & A. Masons, will have work in the E. A. degree Friday evening at 7:30 o'clock. A large attendance is desired.

Fifty base hospital units organized by the Red Cross before the United States entered the war and turned over to the Army during hostilities are back from the field and will be reorganized and held ready for any call, civil or military.

2 or 3 Drops, That's All.

There's a murderous, painful way to get rid of corns, and then there is the peaceful, glorious "Gets-It-off" "Gets-It" way. After you have tried "Gets-It" you will say "never

Corns? Get 'It! "Gets-It" Peels 'It! again! to all other methods. This is because "Gets-It" is the only corn-remover on earth that makes corns peel off just like a banana skin. Two or three drops will do the work, without fussing or fussing. You apply it in 2 or 3 seconds. It dries immediately. "Gets-It" does the rest without bandages, plasters, blood-bringing knives or razors. Get rid of that corn-pain at once so that you can work and play without corn torture. Be sure to use "Gets-It." It never fails. "Gets-It" is the only sure, guaranteed money-back corn-remover, costs but a trifle at any drug store. Made by E. Lawrence & Co., Chicago, Ill.

Sold in Rushville and recommended as the world's best corn remedy by P. B. Johnson & Co. and Hargrove & Mullin.

HEARS CASE AGAINST THE STATE TAX LAW

Injunction Suit Filed in Newcastle Will Test Validity of New State Statute

LIBERTY BONDS WERE TAXED

New Castle, Ind., Sept. 25—Judge Fred C. Gause, of the circuit court, was to hold a preliminary hearing today in a suit to test the validity of the new state tax law. It was an injunction suit filed on September 1 by the Hoosier Manufacturing company seeking to enjoin the county auditor from placing the assessments as made by the state tax board on the duplicate. The

suit contests the right of the state tax commissioners to assess Liberty bonds and other United States government securities. The sum of \$450,000 for the Hoosier factory is involved.

The complaint of the Hoosier company alleges that \$100,000 in United States certificates of indebtedness and \$20,000 in Liberty bonds were assessed by the board and also that \$47,000 worth of property held by the company outside the state was listed for taxation.

Valuations of Hoosier were raised by the tax board from \$775,000 to \$1,225,000. The Pan-American Bridge company filed a similar suit, but it has been dismissed.

The northern hemisphere has more than 200 public astronomical observatories, to less than twenty in the southern.

EMIGRANTS TO GO BACK TO EUROPE

Hitherto There Has Always Been a High Flow of Foreigners From European Lands

SEVERAL REASONS ARE GIVEN

General Tie-up in Trans-Atlantic Traffic During Five Years of War is One of Causes

New York, Sept. 25—A stream of emigrants from America that will number hundreds of thousands will flow back to European countries as soon as transportation facilities will permit, according to consular officials in New York, who report that their offices are swamped with applicants for passage back to the old countries.

Authorities familiar with the situation predict important effects from the wave of emigration, which reverses the usual trend of traffic. Hitherto, there has always been a huge flow of immigrants from the European lands to America.

Several reasons are suggested as responsible for the turning of the emigration tide between Europe and America. Jointly they are considered sufficient to cause a wave of immigration to Europe.

The general tie-up in trans-Atlantic traffic during the five years of war is one of the causes for the concentrated desire of Europeans to return home now, think authorities. Many men who came here to work have not been able to visit their families during the war.

Applications filed with consulates show that the majority of these emigrants do not intend to return to America with their families, but feel that they will have better opportunities in the old countries. High wages during the war, and especially during America's participation in it, have enabled most of the foreigners to return home with savings sufficient to make them quite independent on the old scale of living.

It is predicted, however, that few of them realize the cost of living in Europe, where scales have risen more than in America, and that these returning "capitalists" will be disappointed. This will be especially true of Italy, it is believed, where it has long been the custom to go to America a few years and return a well-to-do citizen.

The greatest permanent rush of peoples will be to the small nations freed from yokes of Austria and Germany by the Allied victory, it is thought, judging from indications at consulates of Poland, Czechoslovakia, Serbia, and Rumania. There is also a strong movement under way toward countries formerly under the Russian Czar's rule, especially China and Lithuanians. According to emissaries of the Russian Soviet government in New York, more than half a million Russians throughout the country want to return to Russia.

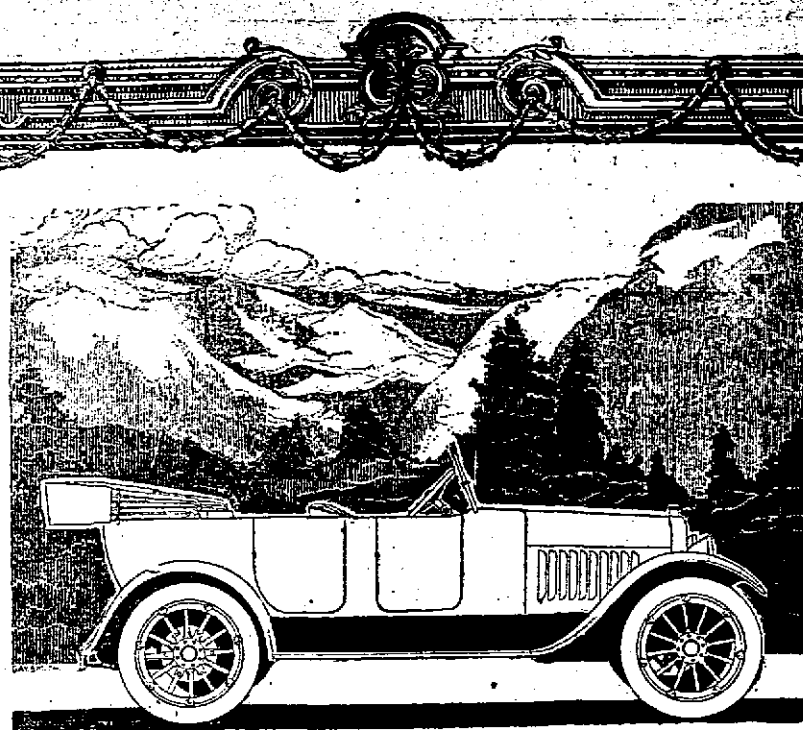

It is impossible to estimate the strength of the movement to Germany and Austria, there being no consular representatives of these countries in America.

Economists see in the emigration movement serious problems for America, which may lose almost a million workmen in the course of two or three years. It is said this will cause a scarcity of the so-called cheap labor for unskilled work, and keep wages high.

At the same time Europe will gradually get more labor, which will tend to reduce wages on that continent, and probably reduce prices, though the emigrants will be scattered through such a large population that they will not affect European countries as much as their absence will be felt in the United States.

Socialists see in the movement a purifying of the American nationality, which has been strengthened and welded together by the war. Removal of that part of the population which has no desire of being assimilated would be a good thing, they think, in spite of the shortage of labor it might create.

W. E. Horton & Son, Chester White hog sale, Tuesday, Sept. 30th on farm. See descriptive ad in Friday's issue. 16316

A Hot Spot Chalmers Costs \$1685 f. o. b. Detroit

THAT is the price of the five-passenger model.

We have said so little for a long time about price, and so many wealthy men have bought Hot Spot Chalmers that the public has begun to feel that the price is higher than the sum really asked.

It's true it's a quality car, quality all the way through; it looks well when purchased—and four years after—and it often runs 10,000 miles without a penny's outlay.

And it has in Hot Spot and Ram's-horn two devices that lift it entirely out of its price field and make it one of the few

great cars of the world today.

It is one of the largest selling six-cylinder cars, it holds the world's 24 hour record, and it has multiplied its friends in all the great centers.

Yet it is not merely a "boulevard car," although it is well dressed; and it is not a "one year car," as it runs even better the second and third year than the first.

The great advance of Chalmers is due to Hot Spot and Ram's-horn.

If you've been driving a \$5000 car come in and take one ride.

You'll forget your evening engagement.

DAIRY SHOW NEXT MONTH

Invitations Accepted by 20 Countries for Chicago Event.

Chicago, Sept. 25—The national Dairy Show, which is to be held in Chicago from October 6 to 12 this year, will bring together people from the four quarters of the globe. The state department at Washington formally invited all the governments of the world to participate in the show and get a post-war message on dairying that Uncle Sam will deliver at that time. Acceptances have been received from twenty or more governments, all of whom will have official representatives at the show. Delegations are also coming from Saskatchewan province in Canada, from Louisiana, Washington, Oregon, California, Atlantic seaboard states and from other parts of the United States and Canada.

In the interior of China, natives hatch both hen and ducks' eggs by burying them in lukewarm rice, which they rebait daily.

She Wants to Help Others

Mrs. A. G. Wells, R. F. D. Rocky Mount, N. C. writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefits I have derived from their use. Please publish this statement as I want the people everywhere to know of them." Lame back, sore muscles, puffiness under eyes, and an "always tired" feeling are indications that kidneys and bladder are not working properly. Foley Kidney Pills strengthen, weak, disordered kidneys and bladder. F. B. JOHNSON, Adv.

AROUND WORLD AIR DERBY

New York, Sept. 25.—Plans for an international air derby around the world were announced to the Aero Club of America today. Prizes will amount to \$1,000,000, it was estimated. The date of the start cannot be announced until the routes and landing places are decided on.

Powerful Pile Remedy Discovered

Has Never Failed to End Most Obstinate Case of Piles in a Few Days.

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only give temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription, known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in such cases it is not necessary to take the internal prescription.—Adv.

DAME FORTUNE IS STRONG FOR EDDIE

Athletic Star Will Have Played in Six Out of Fifteen Post Season Battles

BARRY ALSO HOLDS RECORD.

In Addition Collins Has Received Five Large Slices of World's Series Coin.

Eddie Collins, star second sacker of the White Sox, is sure in strong with old Dame Fortune. While some of the premier ball players of the majors, including Nap Lajoie, have gone through a career without a single look in at world's series honors, the former Athletic star will have played in six out of the fifteen post-season battle when the curtain falls on this year's classic.

He and his old team mate, Jack Barry, hold the record as the most "world's series" players of the game. Barry has been a member of six winners, but he played in only five series, a broken arm in 1916 having kept him from active work in the series.

In addition to the honor of having played in the most world's championship games, Collins had profited immensely by the smile of the little god Luck, which has given him five large slices of the world's series coin and one small hunk. By another piece of luck he did not take part in the series when "slim years" prevailed. It is estimated that the extra money which came to him from this source runs around \$17,000.

His first divvy of the extra coin came with the Athletics when they won the world's championship in 1910. He was with them when they repeated in 1911 and in 1913, when the Braves made the Athletics take the small cut of the pie in 1914 he had another piece. Then he was traded to the White Sox and cut in again on the coin in 1917 and this year he repeats, for even a larger share which seems probable with the increase of the series to nine games.

ONLY THE PRESIDENTS

Garry Herrmann

Chairman of the national commission for sixteen years and president of the Cincinnati Reds for an equal period, August Herrmann is one of the best known men in baseball.

And he is one of the most pleased men in the game this year since his team won its first pennant under his regime. Herrmann became prominent in the National League on August 9, 1902, when he became part owner of the Reds along with George B. Cox, now dead and Max Flieschman. They bought the club from John T. Brush for \$150,000. When the club was reorganized, Herrmann became president and he never relinquished the position.

Early in his career, Herrmann was a printer. He then got into politics with the late boss, George B. Cox, became associated in some big business interests with him and finally branched out as a baseball magnate.

Charlie Comiskey

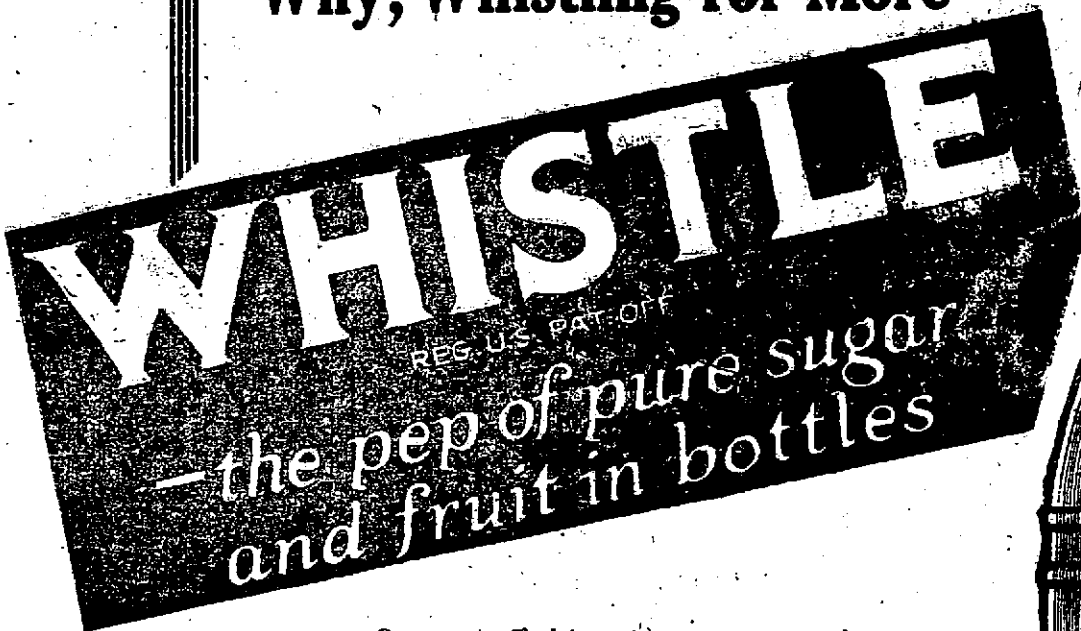

No more picturesque figure is prominent in baseball to-day than Charles Comiskey, the "Old Roman" president of the pennant winning White Sox.

He has been in baseball's spotlight for twenty-seven years as manager, owner and an authority on the national game. He is the big boss now of a team that has never lost a world's series decision. Twice the White Sox have landed a pennant and as many times they have nosed out the National League entry in the big classic.

Comiskey first became prominent as manager of the Cincinnati Reds in 1892, 1893 and 1894. He was not a howling success in that capacity, the team finishing fifth, sixth, and tenth, respectively, under his guidance. His big step came in 1900 during the fight between the National and American League. He was one of the principal factors. He helped organize the western wing of the league and later acted on the

COVENANT DOES NOT SATISFY JAP LABOR

Suzuki Declares too Little Attention Was Paid to Problem of Racial Equality.

DELEGATES ARE INCOMPETENT

(By United Press.)

Yokohama, Japan, Aug. 1 (By Mail).—Japanese labor is not satisfied with the League of Nations covenant if Bunji Suzuki, the Gompers of Japan, speaks for the laboring class.

Referring to the covenant, Suzuki declared that "we can hardly agree with some of the conditions, for instance, the fact that there is no reliable assurance whereby war is made impossible."

"Too little attention was paid to the problem of racial equality, he said, and immigration of laborers was treated only superficially, "and remains unsolved, causing irritation."

"The form of the League of Nations is fixed," he said, "but the spirit of such a league is yet to be born."

Suzuki, who arrived here from America, said Samuel Gompers told him he expected to visit Japan about next April.

Minister Ohai and others who represented Japan at the International labor congress were "utterly incompetent" and "exposed their utter unpreparedness" according to Suzuki. They showed the world a lack of initiative among Japanese labor delegates, he said.

Within five days after starting, a lime pulverizer in one community in Jennings county, B. L. Smith had received orders for 3,000 tons of ground limestone for distribution in the immediate neighborhood. Many demonstrations in the county have convinced the farmers of the value of limestone.

Prepare your car for winter weather

The members of the Rush County Farmers Insurance Association are hereby notified to meet at the Assembly Room, Court House, Rushville, Ind., on

Saturday, October 11, 1919, at 2 o'clock p. m. for the purpose of electing officers for the next ensuing year and for the transaction of such other business as may come before said meeting.

L. R. WEBB,
Actuary.

TAKE PEPSINCO

the best remedy for indigestion that ever came out of a drug store.

You know that pepsin is good for indigestion but pepsin could never do what PEPSINCO will. We have dealt in medicines long enough to know the various uses and value. We unhesitatingly say that PEPSINCO is the best remedy for indigestion, gas, flatulency, food distress, sour stomach and pains under the ribs that ever came out of a drug store. Sufferers of indigestion and dyspepsia will do well to take PEPSINCO.

Ask your druggist—he sells and recommends Pepsinco.

COLUMBIA UNIVERSITY FOOTBALL STRONG

Has Eight Games on Fall Schedule and Prospects are Good for a Clean Sweep

MANY MEN BACK FROM ARMY.

New York, Sept. 25.—Columbia's football candidates were called to report to-day by Coach Fred Dawson.

Even better results are expected for the coming season than last year, when the eleven, crippled by losses of regulars to the army, went through the season with a lone defeat and that to the unbeaten Syracuse team.

Houlahan, Sanapary and Shaw, last year's back field, are expected to return to the university as well as the following linemen, Eccles and Scott, of last year's freshman team, Robinson, Modarelli, Kienninger, Grace, Parks, and Tower. Joe Brown, center and Jack Kennedy, of the 1916 team, will probably be out of the service in time to train with the squad. The loss of Robb, last year's captain, and Halfback Collins by graduation will be felt keenly.

All of the eight games on the following schedule will be played on South field here: Oct. 11, Vermont; Oct. 18, Williams; Oct. 25, Amherst; Nov. 15, Wesleyan; Nov. 22, New York university and Nov. 27, Brown.

Simple Home Remedy

Advised For Rose And Hay Fever

Anyone Can Make a Pint For Trifling Sum and Used in Time May Prevent Annual Attack

"No matter how severe your yearly attack be, no matter how distressing or humiliating—its intensity can be reduced to a harmless, mildness." says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery. He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours. In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity. People who want to try this new treatment can make a pint in a few minutes. Pour one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and snuff or spray the nostrils twice daily. That's all there is to the treatment which so many sufferers have found to be a true friend. Mentholized Arcline in one ounce vials is dispensed by all the better pharmacies.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time. And the cost is so little. Just go to any drug or department store, and get a large tube of **SENRECO TOOTH PASTE** for 35 cents. Not only will it make your teeth clean and white but it will at once remove any filmy coating, help to check the ravages of pyorrhea and banish acidity in the mouth. It is used by thousands of dentists and it is the best tooth paste in the world. When you visit your dentist, please ask him to do at least twice a year, you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

INTERCLASS GAMES PLAYED

High School Coach Hopes to Pick Basketball Material This Way

Interclass basketball games are being played every evening after school in the Graham Annex gymnasium, and in this way the manager of the varsity can pick the members for the team which will represent the high school in games this winter. A schedule is about completed and will be announced in a few days. In last night's games, the Seniors defeated the Sophomores by the score of 16 to 13 and the Juniors beat the Freshmen by the score of 16 to 7. The prospects this year are for a good team, and the regular team will be picked in a few days from members of the different class teams.

"OUCH! THAT OLD RHEUMATISM!"

Just get out that bottle of Sloan's Liniment and "knock it galley-west"

WEREN'T prepared for that quick switch in temperature; were you? Left you stiff, sore, full of rheumatic twinges? You should have had a bottle of Sloan's Liniment handy—that would have soon eased up the muscles, quieted the jumpy, painful, affected part—penetrated without rubbing, bringing gratifying relief.

Helpful in all attacks of lumbago, sciatica, external soreness, stiffness, strains, aches, sprains. Get a bottle at your druggist's. 35c., 70c., \$1.40.

DID YOU EVER SEE ASBESTOS SWEAT?

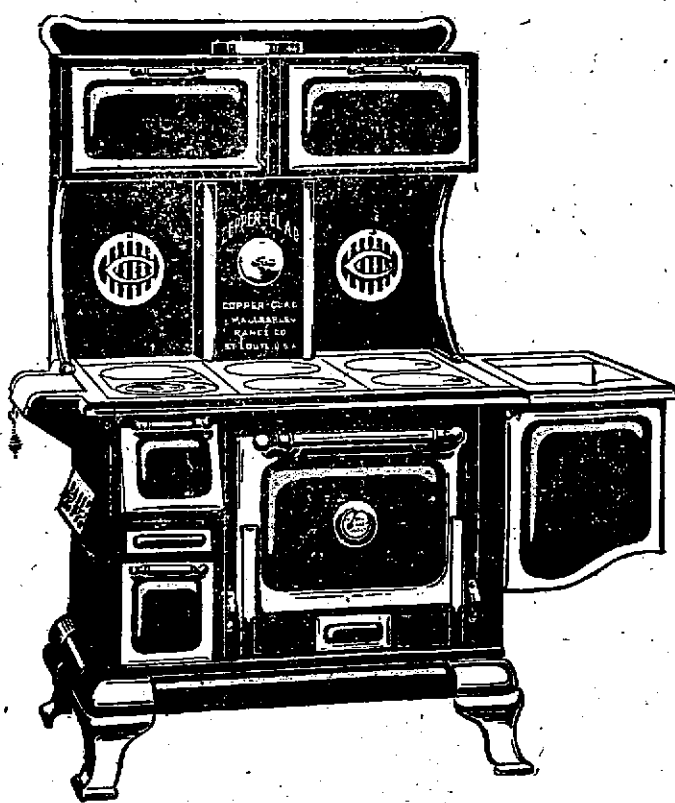

WET WITH SWEAT

Every time a fire is built in a range the body gets wet with sweat. Sweat Rusts.

Is There a Doubt in Your Mind?

Come then and see for yourself. See the Sweat roll up in beads on the iron body. See the Sweat that causes Sweat-Rust, a disease that eats up and rusts out range bodies from the inside. Then, see how good, old, everlasting copper is placed between the asbestos and range body. See the domes on the sheet of copper. See the air spaces formed by the domes. See the thermos bottle principle actually applied to ranges.

A WEEK OF DAILY DEMONSTRATION BEGINNING SEPT. 29

The Copper-Clad Range is as Plain as an Automobile Body

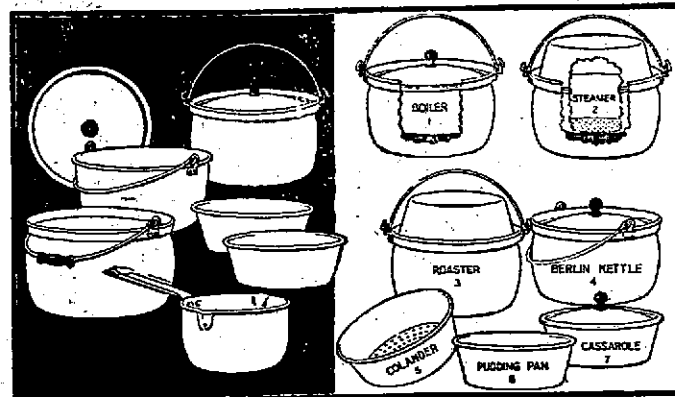

The first automobiles made were fussy, full of ornaments, hinges, catches and latches, but the men who cleaned the automobiles kicked on these things that made so much work and trouble. Then the hinges and latches and catches were put on the inside of the body, clear out of sight—clear out of the way. If men cleaned ranges, the frills and ornaments and fuss and feathers all over the average range would have disappeared 40 years ago.

Clean, smooth, plain, elegant, lined with copper to prevent Sweat-Rust—with four walls and an air space to confine the heat like a thermos bottle—the Copper-Clad is King of the range world. No range compares in any way at any point.

Copper-Clad Means

Pure Sheet Copper is placed between the sweaty asbestos and the range-body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

THIS Set of Elegant Aluminum Ware FREE

"Free" means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the Crank is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible cooker takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

Free to every Copper-Clad buyer during this sale.
Come—See the Asbestos Sweat.

HOT ALFALFA BISCUITS

Alfalfa Biscuits baked in a Copper-Clad oven is about the Goodest Biscuits you ever tasted. Come and taste—stay and eat. Alfalfa Biscuits with butter and hot drip coffee will be served every day. COME—bring your friends and make yourself at home.

For One Week Beginning Sept. 29th.
